As Jess's paranoia grows, it becomes clear that she can no longer trust what in her life is real, and what is one of Dr. Shields' manipulative experiments. Caught in a web of deceit and jealousy, Jess quickly learns that some obsessions can be deadly.

Darynda Jones

Grim Reaper Charley Davidson is back in the final installment of Darynda Jones' *New York Times* bestselling paranormal series.

Charley Davidson, Grim Reaper extraordinaire, is *pissed*. She's been kicked off the earthly plane for eternity – which is the appropriate amount of time to make a person starkraving mad. But someone's looking out for her, and she's allowed to return after a mere hundred years in exile. Is it too much to hope for that not much has changed? Apparently it is. Bummer.

She's missed her daughter, she's missed Reyes, and Beep, but now that she's back on earth, it's time to put to rest burning questions that need answers. What happened to her mother? How did she really die? Who killed her? And are cupcakes or coffee the best medicine? It all comes to a head in an epic showdown between good and evil in this final smart and hilarious novel.

The Headmaster's Wife: A Novel

The Holy Sh!t Moment

How Lasting Change Can Happen in an Instant

James Fell

James Fell, social media dynamo and motivation expert, teaches readers how to skip the hard part and go directly from intention to committed action.

Things change. Sometimes, they change in a moment. It's not the slow and steady pace we're familiar with, but a dramatic shift that splits a life in two. It's the powerful, life-changing moment—*an epiphany*—where you know things will never be the same. Suddenly awakened is a feeling of *rightness*, where a new path is opened before you, and you are *compelled*. Motivation is no longer a scarce resource. The real self and core values are unveiled in an instant, and behavior change effortlessly aligns to become this person you are meant to be.

We are told slow and steady wins the race, but in the real world, the hare leaves the tortoise in its dust. Whether it is to lose weight, battle addiction, change careers/attitudes/relationships, even chase adventure, the rapid transformation is often more powerful, more invigorating, and sets up greater adherence to the new path. It is certainty mixed with passion, suddenly unveiled, that drives you to race towards the finish, determined at every step.

Aggregating clear and cogent research and the voices of real people who have experienced life-changing experiences, *The Holy Sh!t Moment* is about changing your brain to change your life for the better, forever.

James Fell, MA, MBA, is a motivation, health, and fitness writer for the *Los Angeles Times* and the *Chicago Tribune*. He has written extensively for *Chatelaine* and AskMen.com, and authored pieces in *TIME Magazine*, the *Guardian*, *Men's Health*, *Women's Health*, and many other publications. He has a massive and highly engaged following on Facebook and Twitter, and his blog, BodyForWife.com, has millions of visitors a year. He is also the author of *Lose It Right*. He lives in Calgary.

The Spy in Moscow Station

A Counterspy's Hunt for a Deadly Cold War Threat

Eric Haseltine

The thrilling, true story of the race to find a leak in the United States Embassy in Moscow—before more American assets are rounded up and killed.

Foreword by Gen. Michael V. Hayden (Retd.), Former Director of NSA & CIA

In the late 1970s, the National Security Agency still did not officially exist—those in the know referred to it dryly as the No Such Agency. So why, when NSA engineer Charles Gandy filed for a visa to visit Moscow, did the Russian Foreign Ministry assert with confidence that he was a spy?

Outsmarting honey traps and encroaching deep enough into enemy territory to perform complicated technical investigations, Gandy accomplished his mission in Russia, but discovered more than State and CIA wanted him to know.

The Spy in Moscow Station tells of a time when—much like today—Russian spycraft had proven itself far beyond the best technology the U.S. had to offer. The perils of American arrogance mixed with bureaucratic infighting left the country unspeakably vulnerable to ultra-sophisticated Russian electronic surveillance and espionage.

This is the true story of unorthodox, underdog intelligence officers who fought an uphill battle against their own government to prove that the KGB had pulled off the most devastating penetration of U.S. national security in history. If you think "The Americans" isn't riveting enough, you'll love this toe-curling nonfiction thriller.

ERIC HASELTINE was Director of Research at the NSA and Associate Director of National Intelligence in charge of Science and Technology for the U.S. Intelligence community. Before joining the NSA, he was Executive Vice President of Disney Imagineering. A PhD neuroscientist, he has given several popular TED talks on the future of science and is an inventor with over 70 patents and pending patents. He lives in California with his wife, Dr. Chris Gilbert.

The Wartime Sisters

A Novel

Lynda Cohen Loigman

For fans of Lilac Girls, the next powerful novel from the author of Goodreads Choice Awards semifinalist *The Two-Family House* about two sisters working in a WWII armory, each with a deep secret.

"Loigman's strong voice and artful prose earn her a place in the company of Alice Hoffman and Anita Diamant, whose readers should flock to this wondrous new book." —Pam Jenoff, *New York Times* bestselling author of *The Orphan's Tale*

Two estranged sisters, raised in Brooklyn and each burdened with her own shocking secret, are reunited at the Springfield Armory in the early days of WWII. While one sister lives in relative ease on the bucolic Armory campus as an officer's wife, the other arrives as a war widow and takes a position in the Armory factories as a "soldier of production." Resentment festers between the two, and secrets are shattered when a mysterious figure from the past reemerges in their lives.

"One of my favorite books of the year." —Fiona Davis, national bestselling author of *The Dollhouse* and *The Masterpiece*

"A stirring tale of loyalty, betrayal, and the consequences of long-buried secrets." —Kristina McMorris, *New York Times* bestselling author of *The Edge of Lost* and *Sold on a Monday*

PRAISE

"*The Wartime Sisters* shows the strength of women on the home front: to endure, to fight, and to help each other survive." —Jenna Blum, *New York Times* bestselling author of *Those Who Save Us*

"One of my favorite books of the year." —Fiona Davis, national bestselling author of *The Dollhouse*

Hero Dogs

How a Pack of Rescues, Rejects, and Strays Became America's Greatest Disaster-Search Partners

Wilma Melville with Paul Lobo

The incredible memoir of how Wilma Melville turned a band of shelter dogs into one of America's foremost disaster-response assets in catastrophes from 9/11 to Katrina.

Ana and Hunter were failed service dogs. Recon was left for dead on the train tracks. Cody was returned to the shelter seven times before he turned two. To most, these dogs were unadoptable. Unsalvageable. Irredeemable. To retired gym teacher and grandma Wilma Melville, they were the heroes America needed.

Having volunteered as a canine search-and-rescue handler during the 1995 Oklahoma City bombing, Wilma had seen how ill-prepared the country was to respond to disasters. Then and there, beside her loyal Black Lab, Murphy, she makes a pact. Wilma singlehandedly founds the National Disaster Search Dog Foundation (SDF) and begins a journey that will change the face of search-and-rescue in America forever.

But even Wilma could not predict how desperately her idea would soon be needed. With 9/11, the scope of disaster response in America changed in an instant, and people across the country realized how crucial these dogs were, launching the SDF to a national stage.

In this gripping, heartwrenching story, Wilma and writer Paul Lobo trace the paths of the incredible dogs, firefighters, and volunteers who brought her dream to fruition. Wilma recounts struggles and triumphs as they face off with hurricanes, bombings, and other disasters. Along the way, we witness the unshakeable bonds that develop between humans and these incredible dogs.

WILMA MELVILLE is a retired Physical Education instructor, grandmother, and founder of the National Disaster Search Dog Foundation. Still active within the Foundation, she serves on the Board of Directors and is involved with the planning of the National Training Center.

PAUL LOBO is a software engineer, army veteran, and writer of fiction and nonfiction. He has been involved with the SDF for over a year. He lives in the San Francisco Bay Area with his wife and two rescued pit bulls.

How to Think Like a Roman Emperor

The Stoic Philosophy of Marcus Aurelius

Donald Robertson

The life-changing principles of Stoicism taught through the story of its most famous proponent

Roman emperor Marcus Aurelius was the final famous Stoic philosopher of the ancient world. *The Meditations*, his personal journal, survives to this day as one of the most loved self-help and spiritual classics of all time. In *How to Think Like a Roman Emperor*, psychotherapist Donald Robertson weaves stories of Marcus's life from the Roman histories together with explanations of Stoicism—its philosophy and its psychology—to enlighten today's readers. He discusses Stoic techniques for coping with everyday problems, from irrational fears and bad habits to anger, pain, and illness.

How to Think Like a Roman Emperor takes readers on a transformative journey along with Marcus, following his progress from a young noble at the court of Hadrian—taken under the wing of some of the finest philosophers of his day—through to his reign as emperor of Rome at the height of its power. Robertson shows how Marcus used philosophical doctrines and therapeutic practices to build emotional resilience and endure tremendous adversity, and guides readers through applying the same methods to their own lives.

Combining remarkable stories from Marcus's life with insights from modern psychology and the enduring wisdom of his philosophy, *How to Think Like a Roman Emperor* puts a human face on Stoicism and offers a timeless and essential guide to handling the ethical and psychological challenges we face today.

DONALD ROBERTSON is a cognitive-behavioral psychotherapist, trainer, and writer. He was born in Ayrshire, Scotland, and after living in England and working in London for many years, he emigrated to Nova Scotia where he now lives. Robertson has been researching Stoicism and applying it in his work for twenty years. He is one of the founding members of the non-profit organization Modern Stoicism.

Queen Victoria: Daughter, Wife, Mother, Widow

Daughter, Wife, Mother, and Widow

Lucy Worsley

A biography exploring the life Queen Victoria—both as a woman who defied convention and a queen who defined an era.

Perhaps one of the best known of the English monarchs, Queen Victoria forever shaped a chapter of English history, bequeathing her name to the Victorian age. In *Queen Victoria*, Lucy Worsley introduces this iconic woman in a new light. Going beyond an exploration of the Queen merely as a monarch, Worsley considers Victoria as a woman leading a truly extraordinary life in a unique time period. The book is structured around the various roles that Victoria inhabited—a daughter raised to wield power, a loving but tempestuous wife, a controlling mother, and a cunning widow—all while wearing the royal crown.

Far from a proto-feminist, Queen Victoria was socially conservative and never supported women's rights. And yet, Victoria thwarted the strict rules of womanhood that defined the era to which she gave her name. She was passionate, selfish, and moody, boldly defying the will of politicians who sought to control her and emotionally controlling her family for decades. How did the woman who defined Victorian womanhood also manage to defy its conventions? Drawing from the vast collection of Victoria's correspondence and the rich documentation of her life, Worsley explores the identity of this powerful, difficult queen as a wife and widow, mother and matriarch, and above all, a woman of her time.

The Pandora Room

A Novel

Christopher Golden

When what appears to be the original Pandora's Box is discovered in an ancient city, neighboring countries fight for ownership and unleash a terrible plague.

In one ancient variation on the myth of Pandora's Box, there were two jars, one for Pandora and one for her sister, Anesidora. One contained all the blessings of the gods, the other all the world's curses. Now, in a subterranean city in Northern Iraq, archaeologist Sophie Durand has discovered a secret chamber covered in writing that confirms that version of the tale—a chamber which contains a single jar. “Weird shit” expert Ben Walker joins Sophie's team just as the mystery deepens and grows ugly. Those who believe the myth want to know which jar has been found in the Pandora Room, the one containing blessings, or the one full of curses. Governments rush to lay claim, but jihadi forces aren't waiting for the dust to settle. Whatever the jar contains, they want it, no matter who they have to kill...or what will emerge when they open it. For Sophie, Walker, and the others, the Pandora Room may soon become their tomb.

The Coming Storm

A Thriller

Mark Alpert

A new action-packed thriller from Mark Alpert

America is on the brink of collapse, devastated by a brutal government trying to silence its citizens, in the next action-packed thriller from Mark Alpert.

New York City, 2023: Rising seas and superstorms have ravaged the land. Food and electricity are scarce. A dangerous Washington regime has terrorized the city, forcing the most vulnerable and defenseless people into the flood-ravaged neighborhoods. The new laws are enforced by an army of genetically enhanced soldiers, designed to be the fiercest and cruelest of killers. Genetic scientist Dr. Jenna Khan knows too much about how these super-soldiers were engineered: by altering the DNA sequence in ways that could change the fabric of humanity.

Escaping arrest and on the run, Jenna joins forces with a genetically enhanced soldier gone rogue and a Brooklyn gang kingpin to resist the government's plan to manipulate the DNA of all Americans. The race is on to stop the evil experiment before it spreads the genetic changes...and transforms the human species forever.

The Edge of Anarchy

The Railroad Barons, the Gilded Age, and the Greatest Labor Uprising in America

Jack Kelly

The dramatic story of the explosive 1894 clash of industry, labor, and government that shook the nation and marked a turning point for America.

The Edge of Anarchy offers a vivid account of the greatest uprising of working people in American history. At the pinnacle of the Gilded Age, a boycott of Pullman sleeping cars by hundreds of thousands of railroad employees brought commerce to a standstill across much of the country. Famine threatened, riots broke out along the rail lines. Soon the U.S. Army was on the march and gunfire rang from the streets of major cities.

This epochal tale offers fascinating portraits of two iconic characters of the age. George Pullman, who amassed a fortune by making train travel a pleasure, thought the model town that he built for his workers would erase urban squalor. Eugene Debs, founder of the nation's first industrial union, was determined to wrench power away from the reigning plutocrats. The clash between the two men's conflicting ideals pushed the country to what the U.S. Attorney General called "the ragged edge of anarchy."

Many of the themes of *The Edge of Anarchy* could be taken from today's headlines—upheaval in America's industrial heartland, wage stagnation, breakneck technological change, and festering conflict over race, immigration, and inequality. With the country now in a New Gilded Age, this look back at the violent conflict of an earlier era offers illuminating perspectives along with a breathtaking story of a nation on the edge.

PRAISE

"Pay attention, because Jack Kelly's *Ragged Edge* not only captures the flickering Kinetoscopic spirit of one of the great Labor-Capital showdowns in American history, it helps focus today's great debates over the power of economic concentration and the rights and futures of American workers." —Brian Alexander, author of *Glass House: The 1% Economy and the Shattering of the All-American Town*

"Jack Kelly's remarkable new book, *Ragged Edge*, explores an era of our industrial and labor history with remarkable parallels to our own moment: ascendant forces of all-powerful capital, a government beholden to it, new labor movements emerging from the ash..."

JACK KELLY is a journalist, novelist, and historian, whose books include *Band of Giants*, which received the DAR's History Award Medal, and *Heaven's Ditch*. He has contributed to *The Wall Street Journal*, and other national periodicals, and is a New York Foundation for the Arts fellow. He has appeared on The History Channel and been interviewed on National Public Radio. He lives in

Beyond These Walls

Rethinking Crime and Punishment in the United States

Tony Platt

A groundbreaking investigation into the roots of the American criminal justice system reveals how the past bleeds into the present

The contemporary American criminal justice system imprisons more people than any other country in the world. Notorious for its brutal police tactics and unashamed of the astonishing cruelty of its prisons, it regularly turns a blind eye to the institutionalized racism on display 24/7. How did a nation supposedly built on the rule of law get to this point and what can be done about it?

Tony Platt's groundbreaking book *Beyond These Walls* considers how the current broken system can be fixed. He begins by asking readers what a prison is and considers the commonalities between prisons, ghettos, and reservations. He urges us to think about the public functions of private security, consider the relationship between foreign and domestic criminal justice policies, and understand how the public welfare system demeans and criminalizes many, but mostly poor women.

Looking back and forth at the United States' past, Platt explores the deep historical roots of the Trump administration's law and order agenda, with specific attention to race, class, and gender, and explains the failure of past reform efforts that have, ironically, led to an expansion of the police state rather than a contraction. Tony Platt's *Beyond These Walls* is a call to action, a bold plan for structural reforms that would guarantee justice for all.

TONY PLATT is a Distinguished Affiliated Scholar at the Center for the Study of Law & Society, University of California, Berkeley. The author of eleven books dealing with issues of criminal justice, race, inequality, and social justice in American history, he previously taught at the University of Chicago, Berkeley, and California state universities. Platt's experience as a political activist and public intellectual informs his research and publications. He lives in Berkeley, CA.

Connections in Death

An Eve Dallas Novel (In Death, Book 48)

J. D. Robb

In this gritty and gripping new novel in the #1 New York Times bestselling series, Eve Dallas fights to save the innocent—and serve justice to the guilty—on the streets of New York.

Homicide cop Eve Dallas and her billionaire husband, Roarke, are building a brand-new school and youth shelter. They know that the hard life can lead kids toward dangerous crossroads—and with this new project, they hope to nudge a few more of them onto the right path. For expert help, they hire child psychologist Dr. Rochelle Pickering—whose own brother pulled himself out of a spiral of addiction and crime with Rochelle's support.

Lyle is living with Rochelle while he gets his life together, and he's thrilled to hear about his sister's new job offer. But within hours, triumph is followed by tragedy. Returning from a celebratory dinner with her boyfriend, she finds Lyle dead with a syringe in his lap, and Eve's investigation confirms that this wasn't just another OD. After all his work to get clean, Lyle's been pumped full of poison—and a neighbor with a peephole reports seeing a scruffy, pink-haired girl fleeing the scene.

Now Eve and Roarke must venture into the gang territory where Lyle used to run, and the ugly underground world of tattoo parlors and strip joints where everyone has taken a wrong turn somewhere. They both believe in giving people a second chance. Maybe even a third or fourth. But as far as they're concerned, whoever gave the order on Lyle Pickering's murder has run out of chances...

PRAISE

"Robb expertly ratchets up the suspense as the endgame approaches in this deadly chess match between Eve and her cunning opponent." —*Publishers Weekly* on *Dark in Death*

"It is no secret that Robb's Eve Dallas series continues to be one of the most popular brands in crime fiction. Add that to this installment's perfectly executed plot, snappy pacing, and judicious sprinkling of dry humor, and you have a particularly enjoyable treat for loyal fans and curious new readers alike." —*Booklist* on *Secrets in Death*

"Robb continues to impress." —*Publishers Weekly* on *Secrets in Death*

J.D. ROBB is the pseudonym for #1 *New York Times* bestselling author Nora Roberts. She is the author of over 200 novels, including the futuristic suspense *In Death* series. There are more than 500 million copies of her books in print. She lives in Maryland.

Wild Bill

The True Story of the American Frontier's First Gunfighter

Tom Clavin

The definitive true story of Wild Bill, the first lawman of the Wild West, by the #1 New York Times bestselling author of *Dodge City*.

In July 1865, "Wild Bill" Hickok shot and killed Davis Tutt in Springfield, MO—the first quick-draw duel on the frontier. Thus began the reputation that made him a marked man to every gunslinger the Wild West.

James Butler Hickock was known across the frontier as a soldier, Union spy, scout, lawman, gunfighter, gambler, showman, and actor. He crossed paths with General Custer and Buffalo Bill Cody, as well as Ben Thompson and other young toughs gunning for the sheriff with the quickest draw west of the Mississippi.

Wild Bill also fell in love—multiple times—before marrying the true love of his life, Agnes Lake, the impresario of a traveling circus. He would be buried however, next to fabled frontierswoman Calamity Jane.

Even before his death, Wild Bill became a legend, with fiction sometimes supplanting fact in the stories that surfaced. Once, in bar in Nebraska, he was confronted by four men, three of whom he killed in the ensuing gunfight. A famous *Harper's Magazine* article credited Hickok with slaying 10 men that day; by the 1870s, his career-long kill count was up to 100.

The legend of Wild Bill has only grown since his death in 1876, when cowardly Jack McCall famously put a bullet through the back of his head during a card game. Bestselling author Tom Clavin has sifted through years of western lore to bring Hickok fully to life in this rip-roaring, spellbinding true story.

The Girls at 17 Swann Street

Yara Zgheib

Inspired by her own experience, Yara Zgheib's poetic and poignant debut novel is a haunting portrait of a young woman's struggle with anorexia on an intimate journey to reclaim her life.

Anna Roux was a ballerina in Paris, France, married to the man of her dreams. But beauty and grace eluded her. All she saw in the mirror was imperfection. A body that was terribly overweight. Changing her diet failed to make her thinner, and a knee injury sidelined her career.

Despite a full recovery, Anna no longer dances. When her husband's job brought them to St. Louis, Missouri, she found little to occupy her days. Lonely, homesick, and despairing, her appetite dwindled until she weighed a mere eighty-eight pounds.

Now, Anna has taken up residence at 17 Swann Street, where women with life-threatening eating disorders live. Every step Anna takes towards recovery requires strength, endurance, and the support of the girls at 17 Swann Street.

Big Business

A Love Letter to an American Anti-Hero

Tyler Cowen

An against-the-grain polemic on American capitalism from New York Times bestselling author of *The Great Stagnation*

We love to hate the 800-pound gorilla. Walmart and Amazon destroy communities and small businesses. Facebook turns us into addicts while putting our personal data at risk. From skeptical politicians like Bernie Sanders who, at a 2016 presidential campaign rally said, “If a bank is too big to fail, it is too big to exist,” to millennials, only 42 percent of whom support capitalism, belief in big business is at an all-time low. But are big companies inherently evil? If business is so bad, why does it remain so integral to the basic functioning of America? Economist and bestselling author Tyler Cowen says our biggest problem is that we don’t love business enough.

In *Big Business*, Cowen puts forth an impassioned defense of corporations and their essential role in a balanced, productive, and progressive society. He dismantles common misconceptions and untangles conflicting intuitions. According to a 2016 Gallup survey, only 12 percent of Americans trust big business “quite a lot,” and only 6 percent trust it “a great deal.” Yet Americans as a group are remarkably willing to trust businesses, whether in the form of buying a new phone on the day of its release or simply showing up to work in the expectation they will be paid. Cowen illuminates the crucial role businesses play in spurring innovation, rewarding talent and hard work, and creating the bounty on which we’ve all come to depend.

“[*The Complacent Class*] provides an open invitation for the reader to think deeply.” —Derek Thompson, *The Atlantic*

“*The Complacent Class* is refreshingly nonideological, filled with observations that will resonate with conservatives, liberals and libertarians. ... a useful corrective to the conventional wisdom that American ingenuity, sooner or later, will revive a low-growth economy.” —*The Wall Street Journal*

“Cowen’s book... will have a profound impact on the way people think about the last thirty years.” —Ryan Avent, *Economist.com* on *The Great Stagnation*

TYLER COWEN (Ph.D.) holds the Holbert L. Harris chair in economics at George Mason University. He is the author of a number of explanatory and text books, including *The Complacent Class*, as well as writing the most read economics blog worldwide, marginalrevolution.com. Don't Label Me

A Conversation for Divided Times

Irshad Manji

A unique conversation about diversity, bigotry, and our common humanity, by the NYT bestselling author, Oprah “Chutzpah” award-winner, and founder of the Moral Courage Project

Toxic classrooms and complicated bathrooms. Civil War monuments and Women’s Marches. Social media trolls to social justice warriors.

America—and increasingly, the world—has never been more divided. Group grievances and identity politics define our national and personal conversations. Race, class, religion, and gender, along with hot-button political and social issues, now rupture families, end friendships, and pit communities against each other.

What to do? How can we restore what we have in common, finding the human inside the “other” we have come to fear, resent, or feel oppressed by? Written in the form of a warm, wide-ranging, and thoughtful conversation with a remarkable dog named Lily, *Don't Label Me* helps readers find a way to truly hear someone else—and therefore enrich our own lives.

Bestselling author, educator, and speaker Irshad Manji has spent her life facilitating connections between people who passionately disagree with—even hate—each other. In *Don't Label Me*, she gently dismantles our tribal walls and shows how diversity, practiced honestly by all sides, can unite rather than divide.

PRAISE

Praise for *The Trouble With Islam Today*:

"*The Trouble with Islam* is beyond controversial. It may ignite a firestorm of protest...her easy conversational style, addressed to 'my fellow Muslims,' makes it accessible to a wide range of readers."—*The Toronto Star*

Irshad Manji is the founder of the award-winning Moral Courage Project at the University of Southern California, and the *New York Times* bestselling author of *The Trouble With Islam Today*, translated into over thirty languages, and later adapted into the Emmy-nominated PBS film *Faith Without Fear*. She has been named a Young Global Leader by the World Economic Forum, received the Tom Lantos Award for Human Rights and Justice, and was the first “Chutzpah” award winner selected by Oprah Winfrey.

Daughter of Moloka'i

Alan Brennert

The highly anticipated sequel to Alan Brennert's acclaimed book club favorite, and national bestseller, *Moloka'i*

Alan Brennert's beloved novel *Moloka'i*, currently has over 600,000 copies in print. This companion tale tells the story of Ruth, the daughter that Rachel Kalama—quarantined for most of her life at the isolated leprosy settlement of Kalaupapa—was forced to give up at birth.

The book follows young Ruth from her arrival at the Kapi'olani Home for Girls in Honolulu, to her adoption by a Japanese couple who raise her on a strawberry and grape farm in California, her marriage and unjust internment at Manzanar Relocation Camp during World War II—and then, after the war, to the life-altering day when she receives a letter from a woman who says she is Ruth's birth mother, Rachel.

Daughter of Moloka'i expands upon Ruth and Rachel's 22-year relationship, only hinted at in *Moloka'i*. It's a richly emotional tale of two women—different in some ways, similar in others—who never expected to meet, much less come to love, one another. And for Ruth it is a story of discovery, the unfolding of a past she knew nothing about. Told in vivid, evocative prose that conjures up the beauty and history of both Hawaiian and Japanese cultures, it's the powerful and poignant tale that readers of *Moloka'i* have been awaiting for fifteen years.

PRAISE

Praise for Alan Brennert and *Moloka'i*:

"Alan Brennert is a brilliant scriptwriter. He's an even better novelist." —George R.R. Martin

"A dazzling historical saga." —*The Washington Post*

"Filled with original, fully realized characters who walk right off the page and into our hearts." —Jim Fergus, author of *One Thousand White Women*

"Beauty emanates from this poignant historical novel . . . The exquisite splendor of the setting complements the shining portrayal of the human spirit." —*The Huffington Post*

ALAN BRENNERT is the author of *Honolulu*, *Palisades Park*, and *Moloka'i*, which was a 2006-2007 BookSense Reading Group Pick; won the 2006 Bookies Award, sponsored by the Contra Costa Library, for the Book Club Book of the Year; and was a 2012 One Book, One San Diego Selection. He won an Emmy Award for his work as a writer-producer on the television series *L.A. Law*.

Carradine soon finds himself on the trail of Lara Bartok, a leading figure in Resurrection, a violent revolutionary movement targeting prominent right-wing political figures around the world. Caught between competing intelligence services who want Bartok dead, Carradine faces a choice: to abandon Bartok to her fate or to risk everything trying to save her.

In Putin's Footsteps

Searching for the Soul of an Empire Across Russia's Eleven Time Zones

Nina Khrushcheva and Jeffrey Tayler

A unique combination of travelogue, current affairs, and history showing how Russia's dimensions have shaped its identity and culture through the decades.

With exclusive insider status as Nikita Khrushchev's great grand-daughter, and an ex-pat living and reporting on Russia and the Soviet Union since 1983, Nina Khrushcheva and Jeffrey Taylor offer a poignant exploration of the largest country on earth through their recreation of Vladimir Putin's fabled New Year's Eve speech planned across all eleven time zones.

After taking over from Yeltsin in 1999, and then being elected president in a landslide, Putin traveled to almost two dozen countries and a quarter of Russia's eighty-nine regions to connect with ordinary Russians. His travels inspired the idea of a rousing New Year's Eve address delivered every hour at midnight throughout Russia's eleven time zones. The idea was beautiful, but quickly abandoned as an impossible feat. He correctly intuited, however, that the success of his presidency would rest on how the country's outback citizens viewed their place on the world stage.

Today more than ever, Putin is even more determined to present Russia as a formidable nation. We need to understand why Russia has for centuries been an adversary of the West. Its size, nuclear arsenal, arms industry, and scientific community (including cyber-experts), guarantees its influence.

PRAISE

*Praise for **Imagining Nabokov**:*

"At times a sentimental book, this take on Nabokov's oeuvre gathers its themes—Nabokov, language, Russia—together in a loose weave at turns shapeless and captivating." —*Publishers Weekly*

"Combining literary criticism with political theory is often attempted and rarely done well. Nina Khrushcheva succeeds brilliantly."—*Ian Buruma, Henry Luce Professor of Democracy, Human Rights and Journalism, Bard College*

NINA KHRUSHCHEVA is the author of *Imagining Nabokov* and *The Lost Khrushchev*, and a Professor of International Affairs at New School University. Her work has appeared in *Newsweek*, *The New York Times*, *The Wall Street Journal*, and *The Financial Times* among others.

A contributing editor at *The Atlantic* and a *New York Times* Notable author, JEFFREY TAYLOR has reported on Russia and the former Soviet Union for *Foreign Policy*, *Harper's Magazine*, *National Geographic*, and more. He lives in Moscow.

Forget You Know Me

Jessica Strawser

In this riveting domestic thriller, Jessica Strawser takes readers deep into the intimate friendship of two women and the distance, secrets, and lies that threaten to break them apart.

Liza and Molly are life-long best friends—or at least they used to be. Ever since Liza moved to Chicago to pursue her career, leaving Molly behind in Cincinnati with a husband and two kids, the distance between their two lives has grown more and more insurmountable. In a last-ditch effort to save their friendship, they arrange a “girls night” over webcam, wine in hand, catching up like they used to. But when Molly runs upstairs to check on a crying toddler, Liza watches, horror-struck, as a masked man enters the home of her best friend.

After calling the police, Liza frantically tries to reach Molly, but when she finally responds, her message is icy and terse, insisting that everything is fine. Liza is still convinced something is wrong—that her friend is in danger. But after an all-night drive to rescue her ends in a brutal confrontation, Liza is sure their friendship is over.

Meanwhile, Molly finds herself wondering whether she’s dodged one ruinous mistake only to make another in its place. Did she sacrifice her oldest friendship to save her marriage? Or has she inadvertently sacrificed both?

Liza and Molly can’t avoid each other forever, and soon, they’ll face a reckoning that will force them to decide just how much weight a shared history can carry.

The Darkest Year

The American Home Front, 1941-1942

William K. Klingaman

***The Darkest Year* is a narrative history of the American home front from December 7, 1941 through the end of 1942, a psychological study of the nation under the pressure of total war.**

For Americans on the home front, the twelve months following the Japanese attack on Pearl Harbor comprised the darkest year of World War Two. Despite government attempts to disguise the magnitude of American losses, it was clear that the nation had suffered a nearly unbroken string of military setbacks in the Pacific; by the autumn of 1942, government officials were openly acknowledging the possibility that the United States might lose the war.

Appeals for unity and declarations of support for the war effort in the aftermath of Pearl Harbor made it appear as though the class hostilities and partisan animosities that had beset the United States for decades — and grown sharper during the Depression — suddenly disappeared. They did not, and a deeply divided American society splintered further during 1942 as numerous interest groups sought to turn the wartime emergency to their own advantage.

Blunders and repeated displays of incompetence by the Roosevelt administration added to the sense of anxiety and uncertainty that hung over the nation.

The Darkest Year focuses on Americans' state of mind not only through what they said, but in the day-to-day details of their behavior. Klingaman blends these psychological effects with the changes the war wrought in American society and culture, including shifts in family roles, race relations, economic pursuits, popular entertainment, education, and the arts.

Secrets of a Soldier's Wife

A True Story of Marriage, Obsession, and Murder

Shanna Hogan

Award-winning journalist and *New York Times* bestselling author Shanna Hogan tells the true story of a young Marine wife whose illicit affair ended in tragedy.

In June 2014, 19-year-old Erin Corwin was living a quiet life in Twentynine Palms, California, expecting her first child with her husband, U.S. Marine Corporal Jon Corwin—until the day she drove off into the desert and never returned. As temperatures climbed into the hundreds, friends and family teamed up with local law enforcement in a grueling search of Joshua Tree National Park. Nearly two months after her disappearance, Corwin's body was found at the bottom of an abandoned mine shaft, a homemade garrote wrapped around her throat.

Detectives quickly turned their attention to the Corwins' next-door neighbors: fellow Marine Christopher Lee and his wife. The couples had leaned on each other for support, but it soon became clear that Chris and Erin's relationship had developed into a whirlwind romance that consumed them both and left the paternity of Corwin's baby in question. Lee told investigators he'd gone out hunting the day of Corwin's disappearance, but his claims of innocence soon began to crumble. And while Corwin was researching baby names, Lee was reportedly searching the internet for ways to dispose of a human body.

Through interviews, court records, and extensive research, bestselling true-crime author Shanna Hogan constructs a chilling story of betrayal, deception, and tragedy.

Mother Country

A Novel

Irina Reyn

Award-winning author Irina Reyn explores what it means to be a mother in a world where you can't be with your child

Nadia's daily life in south Brooklyn is filled with small indignities: as a senior home attendant, she is always in danger of being fired; as a part-time nanny, she is forced to navigate the demands of her spoiled charge and the preschooler's insecure mother; and as an ethnic Russian, she finds herself feuding with western Ukrainian immigrants who think she is a traitor.

The war back home is always at the forefront of her reality. On television, Vladimir Putin speaks of the "reunification" of Crimea and Russia, the Ukrainian president makes unconvincing promises about a united Ukraine, while American politicians are divided over the fear of immigration. Nadia internalizes notions of "union" all around her, but the one reunion she has been waiting six years for - with her beloved daughter - is being eternally delayed by the Department of Homeland Security. When Nadia finds out that her daughter has lost access to the medicine she needs to survive, she takes matters into her own hands.

Mother Country is Irina Reyn's most emotionally complex, urgent novel yet. Hopeful and full of humor, it is a story of mothers and daughters and, above all else, resilience.

PRAISE

"[A] powerful, painstakingly imagined, timely and timeless novel." - Karen Joy Fowler, *New York Times* bestselling author of *We Are All Completely Beside Ourselves* and *The Jane Austen Book Club*

IRINA REYN is the author of *What Happened to Anna K: A Novel* and *The Imperial Wife* and the editor of the anthology *Living on the Edge of the World*. The Power of Agency

The 7 Principles to Conquer Obstacles, Make Effective Decisions, and Create a Life on Your Own Terms

Paul Napper, PsyD and Anthony Rao, PhD

From two eminent clinical psychologists, how to access your personal agency—your ability to create a meaningful life on your own terms—and adapt to living in “the age of overwhelm”

Described by the World Health Organization as the most anxious nation on earth, the United States finds itself living amidst a national epidemic. We struggle to keep clear minds and to think for ourselves, limiting our ability to make optimal decisions in our lives. Nonstop technology and an increasing focus on metrics and performance are part of everyday, and all of these things leave us feeling, in a word, overwhelmed.

Agency is the ability to act as an effective agent for oneself—thinking, reflecting, and making creative choices, and acting in ways that direct us toward the lives we want. Agency is what humans use to *feel in command of their lives*. For decades, agency has been a central concern of psychologists, sociologists, and philosophers seeking to help generations of people live in greater accord with their interests, values, and inner motivations.

Renowned clinical psychologists Paul Napper and Anthony Rao offer seven practices using mind and body to help you locate and develop your own agency. Based on years of research and real-world application, their methods equip you to succeed in a world requiring constant adaptation. Illustrated through the stories of people who have developed higher levels of agency, *The Power of Agency* gives you the skills and insights to do less and *reflect* more before making life choices—and plot the steps to create a life on your own terms.

PRAISE

"The deceptive simplicity of *The Power of Agency* is rooted in the authors' close acquaintance with the complexity of modern life; their genius lies in their ability to show us precisely *how* to run our own lives rather than to allow our lives to run us." —Edward Hallowell, M.D.

PAUL NAPPER leads a management psychology practice. His client list includes Fortune 500 companies, non-profits, universities, and start-ups. He held an advanced fellowship during a three-year academic appointment at Harvard Medical School (HMS). ANTHONY RAO is a cognitive-behavioral therapist. For over 20 years he was a pediatric psychologist at Boston Children's Hospital and an instructor at HMS. In 1998 he opened a specialized private practice. He appears regularly as an expert commentator.

When All Is Said

A Novel

Anne Griffin

A tale of a single night. The story of a lifetime.

If you had to pick five people to sum up your life, who would they be? If you were to raise a glass to each of them, what would you say? And what would you learn about yourself, when all is said and done?

This is the story of Maurice Hannigan, who, over the course of a Saturday night in June, orders five different drinks at the Rainford House Hotel. With each he toasts a person vital to him: his doomed older brother, his troubled sister-in-law, his daughter of fifteen minutes, his son far off in America, and his late, lamented wife. And through these people, the ones who left him behind, he tells the story of his own life, with all its regrets and feuds, loves and triumphs.

Beautifully written, powerfully felt, *When All Is Said* promises to be the next great Irish novel.

PRAISE

"An extraordinary novel, a poetic writer, and a story that moved me to tears."

—John Boyne

"Griffin captures the texture of a night catching up with an old friend—the pleasures and comforts, the stories and surprises—one that you never want to end, and all the more bittersweet because you know, of course, that it must."

—Kathleen Rooney, *Lillian Boxfish Takes a Walk*

"Maurice Hannigan is one of those rare and unforgettable characters whose lives we enter, inhabit for a time all too brief, and emerge from deeply changed. Griffin is a writer with a bright, bright future." —Janet Peery

ANNE GRIFFIN is the winner of the John McGahern Award for Literature. Shortlisted for the Hennessey New Irish Writing Award and *The Sunday Business Post* Short Story Competition, Anne's work has been featured in, amongst others, *The Irish Times* and *The Stinging Fly*, and she had an eight year career at Waterstones. Anne lives in Ireland with her husband and son. *When All Is Said* is her debut novel.

Loonshots

How to Nurture the Crazy Ideas That Win Wars, Cure Diseases, and Transform Industries

Safi Bahcall

What the laws of physics reveal about how innovative companies with winning cultures get that way, and why they eventually crash and burn.

What do James Bond and Lipitor have in common? Why do traffic jams appear out of nowhere on highways? How did the Allies win the secret war against the Nazis? Why does the world speak English? What do the answers to these questions tell us about building more innovative teams?

Loonshots describes a new way to think about innovation: why a company's *structure* matters more than its *culture*. Safi Bahcall, a physicist and entrepreneur, applies the science of phase transitions to the behavior of teams.

The Nobel laureate Phil Anderson once captured the essence of phase transitions with the phrase “more is different.” The collective behaviors of liquids and solids are more than the sum of their parts. They are something new: phases of matter. The *same* molecules can behave in very different ways. Bahcall explains why the collective behaviors of people in teams and companies are something new: phases of organization. Small changes in structure can transform teams from nurturing breakthroughs to inhibiting them, just like small changes in temperature can transform flowing water to rigid ice. Understanding those phases can help us design more innovative teams.

Loonshots describes the science, draws on examples from Pan Am to Pixar, and offers rules that creatives, entrepreneurs, and managers can use to innovate faster and better.

SAFI BAHCALL received his BA *summa cum laude* in physics from Harvard and his PhD from Stanford. After working for three years as a consultant for McKinsey, he co-founded Synta Pharmaceuticals—a biotechnology company developing new drugs for cancer—and served as its CEO for 13 years. In 2008, he was named E&Y New England Biotechnology Entrepreneur of the Year. In 2011, he served on the President's Council of Advisers on Science and Technology working group on the future of national research.

In the Blink of an Eye

Jesse Blackadder

A deeply emotional drama that explores a family's path to forgiveness and redemption in the aftermath of a tragedy.

The Brennans — parents, Finn and Bridget, and their sons, Jarrah and Toby — have made a sea change, from chilly Hobart, Tasmania, to subtropical Murwillumbah, New South Wales. Feeling like foreigners in this land of sun and surf, they're still adjusting to work, school, and life in a sprawling purple clapboard house, when one morning, tragedy strikes.

In the devastating aftermath, the questions fly. What really happened? And who's to blame? Determined to protect his family, Finn finds himself under the police and media spotlight. Guilty and enraged, Bridget spends nights hunting answers in the last place imaginable. Jarrah — his innocence lost — faces a sudden and frightening adulthood where nothing is certain.

In the Blink of an Eye is a haunting, redemptive story about forgiveness and hope.

Loose Threads, Ripping Yarns, and the Darndest Characters from My Time in the Game

Ron Darling with Daniel Paisner

This is *New York Times* bestselling author and Emmy-nominated broadcaster Ron Darling's 108 baseball anecdotes that connect America's game to the men who played it.

In *108 Stitches*, Ron Darling offers his own take on the "six degrees of separation" game and knits together a collection of wild, wise, and wistful stories reflecting the full arc of a life in and around our national pastime.

Darling has played with or reported on just about everybody who has put on a uniform since 1983, and they in turn have played with or reported on just about everybody who put on a uniform in a previous generation. Through relationships with baseball legends on and off the field, like Yale coach Smoky Joe Wood, Willie Mays, Bart Giamatti, Tom Seaver and Mickey Mantle, Darling's reminiscences reach all the way back to Babe Ruth and other turn-of-the-century greats.

Like the 108 stitches on a baseball, Darling's experiences are interwoven with every athlete who has ever played, every coach or manager who ever sat in a dugout, and with every fan who ever played hooky from work or school to sit in the bleachers for a day game.

Darling's anecdotes come together to tell the story of his time in the game, and the story of the game itself.

PRAISE

Ron Darling is the *New York Times* bestselling author of *Game 7, 1986* and *The Complete Game* as well as an Emmy Award-winning baseball analyst. He was a starting pitcher for the New York Mets from 1983 to 1991 and the first Mets pitcher to be awarded a Gold Glove.

Hollywood Godfather

My Life in the Movies and the Mob

Gianni Russo with Patrick Picciarelli

The over-the-top memoir of a real-life mobster-turned-actor who helped make *The Godfather* a reality, and his story of life on the edge between danger and glamour.

Gianni Russo was a handsome 25-year-old mobster with no acting experience when he walked onto the set of *The Godfather* and entered Hollywood history. He played Carlo Rizzi, the husband of Connie Corleone, who set her brother Sonny—played by James Caan—up for a hit. Russo didn't have to act—he knew the mob inside and out: from his childhood in Little Italy, where Mafia legend Frank Costello took him under his wing, to acting as a messenger for New Orleans mob boss Carlos Marcello during the Kennedy assassination, to having to go on the lam after shooting and killing a member of the Colombian drug cartel in his Vegas club.

Along the way, Russo befriended Frank Sinatra, who became his son's godfather, and Marlon Brando, who mentored his career as an actor after trying to get Francis Ford Coppola to fire him from *The Godfather*. Russo had passionate affairs with Marilyn Monroe, Liza Minelli, and scores of other celebrities. He went on to star in *The Godfather: Parts I and II*, *Seabiscuit*, *Any Given Sunday* and *Rush Hour 2*, among many other films, and also acted as producer on several. *Hollywood Godfather* is his no-holds-barred account of a life lived on the edge. It is a story filled with violence, glamour, sex—and fun.

PRAISE

“Gianni Russo has seen a lot, done a lot, and tells it all. Amazing.”—Nick Pileggi, Academy Award-nominated screenwriter of *Goodfellas*

“Gianni Russo is a true character who has led a most colorful life.”—Gay Talese, journalist and *New York Times* bestselling author

GIANNI RUSSO has appeared in forty-five movies, has been involved in the production of nineteen more, and has been in numerous TV shows. His most well-known roles include parts in *The Godfather: Parts I and II*; *Goodnight, My Love*; *Lepke*; *Laserblast*; *Chances Are*; *The Freshman*; *Seabiscuit*; and *Rush Hour 2*. He also has a part in the upcoming Barry Minkow biopic. His lifelong association with organized crime has seen him witness to mob history. He is also a singer with sold-out shows across the coun...

Treason

Rick Campbell

A military coup in Russia leads to a swift invasion of former Soviet territories—while the U.S. has been rendered powerless to respond—in this classic military technothriller.

In Russia, the military is anxious to assert its military strength and regain its role as a superpower. The Russian President refuses to greenlight a bold plan to disable American strategic nuclear capability and retake Ukraine and the Baltic States, fearing the potential consequences of involving nuclear weapons. But the generals won't have it and at their first opportunity, they overthrow the president in a military coup. Then they use a narrow window to initiate their bold plan—the Zolotov option—which will render all of America's B2 bombers and ballistic missiles useless. With the U.S. off the board, they swiftly invade Ukraine with an overwhelming force, an invading Army that even NATO can't hope to resist.

Now, it's game on. Without their primary weapons, the U.S. has to find a way to fight back on multiple fronts. If they're to have any chance, they'll have to overcome the malware that has grounded their ballistic missiles and planes, as well as secretly land a SEAL team to help rescue the imprisoned Russian President, and help retake control from the forces that are driving Europe into a continental war.

Rick Campbell, one of the finest young military thriller writers, returns with his biggest and boldest novel to date.

PRAISE

“Enthralling... The submarine and surface-ship battles are pitch-perfect, and readers will shudder with every missile strike and every exploding depth charge.”
—*Publishers Weekly on Blackmail*

“The best novel about a submarine since Tom Clancy’s *The Hunt for Red October*.”
—*Booklist* (starred review) on *The Trident Deception*

“A military, techno-thriller throwback to the early days of Tom Clancy mixed with the best of W.E.B. Griffin...*Empire Rising* is a high-tech shoot-’em-up for a more thoughtful generation.” —*Providence Journal*

RICK CAMPBELL is a retired Navy Commander who spent more than twenty years on multiple submarine tours. On his last tour, he was one of the two men whose permission was required to launch the submarine’s nuclear warhead-tipped missiles. Campbell is the author of four novels, including *Empire Rising*, *Ice Station Nautilus*, and *Blackmail*. He lives with his family in the greater Washington, D.C. area.

Win or Die

Leadership Secrets from Game of Thrones

Bruce Craven

A guide to leading without losing your head, inspired by the bestselling books and smash television series.

"When you play the game of thrones, you win or you die. There is no middle ground." —Cersei Lannister

One of the great joys of *Game of Thrones* is strategizing what bold moves you'd make in this bloody, volatile world—from the comfort of your living room. And one of the great terrors of being a leader is knowing your real world can be just as brutal—and offices bring no comfort.

Every day you're presented with opportunities and challenges, and must decide which roads to follow, which risks to confront, when to deny an opportunity and when to pursue the call to adventure. And you won't know whether you'll profit or fail while you're in the thick of it. In *Win or Die: Leadership Secrets from Game of Thrones*, Bruce Craven brilliantly analyzes the journeys of the best and worst leaders in Westeros, so that leaders can create their own narratives of success.

Craven considers beloved characters such as Ned Stark, Jon Snow, Daenerys Targaryen, and Tyrion Lannister as they make terrible decisions and fatal mistakes, but also achieve incredible victories and surprising successes, learning and growing along their (often bloody) ways. Readers will learn how to face conflict and build resilience, develop contextual and emotional intelligence, develop their vision, and more.

This entertaining and accessible guide will show readers how to turn danger into opportunity, even when dragons threaten.

BRUCE CRAVEN teaches his popular elective *Leadership Through Fiction* at Columbia Business School, where he also serves as the Director of Columbia's Advanced Management Program. He has taught workshops in resilience and flexible thinking for organizations in the United States and Europe. He studied politics and literature at the University of California at Santa Cruz and has a MFA in Writing from Columbia University. He lives with his wife and two sons in the Coachella Valley in California.

When Brooklyn Was Queer

Hugh Ryan

The groundbreaking, never-before-told story of Brooklyn's vibrant and forgotten queer history, from the mid-1850s up to the present day.

When Brooklyn Was Queer is a groundbreaking exploration of the LGBT history of Brooklyn, from the early days of Walt Whitman in the 1850s up through the women who worked at the Brooklyn Navy Yard during World War II, and beyond. No other book, movie, or exhibition has ever told this sweeping story. Not only has Brooklyn always lived in the shadow of queer Manhattan neighborhoods like Greenwich Village and Harlem, but there has also been a systematic erasure of its queer history—a great forgetting.

Ryan is here to unearth that history for the first time, and show how the formation of Brooklyn is inextricably linked to the stories of the incredible people who created the Brooklyn we know today. Folks like Ella Wesner and Florence Hines, the most famous drag kings of the late-1800s; E. Trundle, a transgender man whose arrest in Brooklyn captured headlines for weeks in 1913; Hamilton Easter Field, whose art commune in Brooklyn Heights nurtured Hart Crane and John Dos Passos; Mabel Hampton, a black lesbian who worked as a dancer at Coney Island in the 1920s; Gustave Beekman, the Brooklyn brothel owner at the center of a WWII gay Nazi spy scandal; and Josiah Marvel, a curator at the Brooklyn Museum who helped create a first-of-its-kind treatment program for gay men arrested for public sex in the 1950s. Through their stories, *WBWQ* brings Brooklyn's queer past to life.

PRAISE

"Brilliant work...a thrilling portrait of the endurance, resourcefulness, and indefatigable joy queer people brought to bear upon the challenge of their own survival. This is an essential book, and I'm more grateful to it than I can say."
—Garth Greenwell, author of the national bestseller *What Belongs to You*

"Tender, compelling, fascinating—Hugh Ryan is doing essential work here, bringing us stories of the lives we almost lost to time and gentrification....Brave and unstinting." —Alexander Chee, author of the *Los Angeles Times* bestselling *The Queen of the Night*

Hugh Ryan is a writer and curator based in Brooklyn. He is the Founder of the Pop-Up Museum of Queer History, and sits on the Boards of *QED: A Journal in LGBTQ Worldmaking*, and the Museum of Transgender History and Art. His writing has appeared in *The New York Times*, *Tin House*, *Buzzfeed*, the *LA Review of Books*, *Out*, and many other venues. He has received fellowships from the New York Public Library and the New York Foundation for the Arts, and a residency at The Watermill Center.

The Billionaire Boondoggle

How Our Politicians Let Corporations and Bigwigs Steal Our Money and Jobs

Pat Garofalo

The first comprehensive look at how politicians let the entertainment industry bilk taxpayers, hijack public policy and hurt economic investment, starting and ending with Trump

It is widely believed, that a city in possession of a fortune must be in want of a partner who will drive economic development and thus be worth a substantial dowry of tax abatements, subsidies, and grants. These partners always prove faithless, though, especially when it comes to the entertainment industry. Never date an actor, as they say.

From stadiums and movie productions to casinos and mega-malls to convention centers and hotels, cities and states have paid out billions of dollars to the world's corporate titans in an attempt to boost their economies, create new and better jobs, and lure well-known events such as the Olympics and the Super Bowl to within their borders, not to mention give officials a chance to have their pictures taken with celebrities. That Big Entertainment drives bigger economies is a myth, however, one that has nonetheless permeated every facet of policy making despite the overwhelming evidence that it results in a raw deal for the taxpaying public.

In *The Billionaire Boondoggle*, Garofalo takes readers on a tour of publically-subsidized corporate America to explain how that myth came to be, how much money America's elected officials throw away, and why courting Big Entertainment just courts disaster.

PRAISE

“Pat Garofalo has a real knack for finding the intersection of entertainment, politics and economics, and writing about it in a way that shows just how important the issues involved really are. From sports stadiums to the Oscars to the lottery, his work makes it easy to understand how people get ripped off by their favorite teams, hobbies and past-times, and what lawmakers should do about it. His book would be a great addition to the world of business and economics writing.” –Robert Schlesinger, author of *White House Ghosts: Presidents and their Speechwriters*

PAT GAROFALO was an assistant managing editor for opinion at U.S. News & World Report, where he wrote about all things politics and policy. He played a leading role in the section's coverage of the 2016 presidential contest. Garofalo's writing on economic policy has appeared in a host of top publications, including *The Atlantic*, *The Baltimore Sun*, *The Nation*, and *The Guardian*. He has appeared on NPR, MSNBC, ABC News, and Al-Jazeera English. He lives in Washington, D.C. with his wife.

Dear George, Dear Mary

Mary Calvi

A novel about heiress Mary Philipse's relationship with George Washington, based on historical accounts, letters, and personal journals.

"Love is said to be an involuntary passion, and it is, therefore, contended that it cannot be resisted." —George Washington

Unrequited love might have sparked a flame that ignited a cause that became the American Revolution. Never before has this story about George Washington been told. Crafted from hundreds of letters, witness accounts, and journal entries, *Dear George, Dear Mary* explores George's relationship with his first love, New York heiress Mary Philipse, the richest belle in Colonial America.

From eighteenth century elegant society to bloody battlefields, the novel creates breathtaking scenes and riveting characters. Dramatic portraits of the two main characters unveil a Washington on the precipice of greatness with his insecurities and his inspirations, using the very words he had spoken and written, and his ravishing love, whose outward beauty and refinement disguise madness in elegant clothing.

Dear George, Dear Mary unveils details of a deception long hidden from the world that ultimately led Mary Philipse to being named a traitor, condemned to death and left with nothing. While that may sound like the end, ultimately both Mary and George, achieve what they had always wanted - freedom.

MARY CALVI spent years wondering about the heiress who lived in the grand manor in her hometown of Yonkers, New York. Curiosity propelled her to do her own research that spanned several years. This novel is based on what she uncovered. Calvi is a nine-time New York Emmy award-winning journalist. She serves as a New York television anchor and reporter. Mary is also First Lady of the city of Yonkers where she serves as a member of the board of Hudson River Museum. This is her first novel.

Twilight of the Gods

A Novel

Scott Oden

A *Gathering of Ravens* was called "satisfying...complex...and a pleasure to read" (*Publishers Weekly*, starred review). Now, Scott Oden continues the saga of Grimnir in this new epic fantasy novel.

In *A Gathering of Ravens*, he fought for vengeance. Now, Grimnir is back to fight for his survival.

It is the year of Our Lord 1218 and in the land of the Raven-Geats, the Old Ways reach deep. And while the Geats pay a tax to the King in the name of the White Christ, their hearts and souls belong to the gods of Ásgarðr. But no man can serve two masters.

Pledging to burn this Norse heresy from the land, famed crusader Konráðr the White leads a host against the Raven-Geats, using torch and sword to bring forth the light of the new religion. But the land of the Raven-Geats has an ancient protector: Grimnir, the last in a long line of monsters left to plague Miðgarðr. And he will stand between the Raven-Geats and their destruction.

Aided by an army of berserkers led by their pale queen, Grimnir sparks off an epic struggle –not only against the crusaders, but against the very Gods. For there is something buried beneath the land of the Raven-Geats that Odin wants, something best left undisturbed. Something the blood of the slain, Christian and pagan, will surely awaken.

PRAISE**Praise for *A Gathering of Ravens*:**

"A satisfying saga that's as complex as an old tree's roots, and a pleasure to read."
—*Publishers Weekly* (starred review)

"Oden mixes an exciting and vibrant narrative with a wealth of historical detail to bring Grimnir and his world to life, providing the reader with an immensely satisfying and rewarding experience." —*Booklist*

"This novel creates a rich, grim fantasy world made from Norse, Anglo-Saxon and Celtic myth with strands of Tolkien.... Recommended for lovers of Tolkien, dark fantasy and northern mythology." —*Historical Novel Society*

SCOTT ODEN was born in Indiana, but has spent most of his life shuffling between his home in rural North Alabama, a Hobbit hole in Middle-earth, and some sketchy tavern in the Hyborian Age. He is an avid reader of fantasy and ancient history, a collector of swords, and a player of tabletop role-playing games. His previous books include *Men of Bronze*, *Memnon*, and *The Lion of Cairo*. When not writing, he can be found walking his two dogs or doting over his lovely wife, Shannon.

Ladies Who Punch

The Explosive Inside Story of "The View"

Ramin Setoodeh

A page-turning history of *The View*, one of daytime television's longest running and most lucrative shows, and the soap opera worthy story of the formidable women behind its success

When Barbara Walters launched *The View* in 1997, ABC executives repeatedly told her that hosting the show would tarnish her reputation as a serious newswoman. Ten years later, *The View* was being watched daily in the living rooms of tens of millions of Americans and launched the careers of Meredith Vieira, Star Jones, Elisabeth Hasselbeck, and Joy Behar. But the daily chat-fest didn't just comment on the news, it became the news. The women of *The View* were opinion-makers and power brokers, and no one questioned the show's importance or its place in history.

As viewership continued to top the charts, a seemingly endless series of clashes among the stars (and their guests) and a revolving door of co-hosts earned front-page coverage in magazines and newspapers. National headlines chronicled Rosie O'Donnell's feud with Donald Trump, Whoopi Goldberg's conversations about race, and Walters' struggle to maintain control of it all.

Laced with humor and a cast of larger-than-life characters, this is both a timely chronicle of 21st century daytime television and a classic tale about power. With in-depth reporting and new interviews, this story takes readers behind the scenes where these very public figures struggled to balance image, ambition, friendship, and loyalty, while changing television forever.

RAMIN SETOODEH, an award-winning journalist, is the New York bureau chief for *Variety*. He was formerly a senior writer at *Newsweek* and has also written for *The Wall Street Journal*, the *Los Angeles Times*, and *U.S. News & World Report*, among other publications. He lives in New York City.

The Girl He Used to Know

Tracey Garvis Graves

New York Times bestselling author of *On the Island*, Tracey Garvis Graves, presents the compelling, hopelessly romantic novel of unconditional love.

Annika (rhymes with Monica) Rose, is an English major at the University of Illinois. Anxious in social situations where she finds most people's behavior confusing, she'd rather be surrounded by the order and discipline of books or the quiet solitude of playing chess.

Jonathan Hoffman joined the chess club and lost his first game--and his heart--to the shy and awkward, yet brilliant and beautiful Annika. He admires her ability to be true to herself, quirks and all, and accepts the challenges involved in pursuing a relationship with her. Jonathan and Annika bring out the best in each other, finding the confidence and courage within themselves to plan a future together. What follows is a tumultuous yet tender love affair that withstands everything except the unforeseen tragedy that forces them apart, shattering their connection and leaving them to navigate their lives alone.

Now, a decade later, fate reunites Annika and Jonathan in Chicago. She's living the life she wanted as a librarian. He's a Wall Street whiz, recovering from a divorce and seeking a fresh start. The attraction and strong feelings they once shared are instantly rekindled, but unless they confront the fears and anxieties that drove them apart, their second chance will end before it truly begins.

The Stressed Years of Their Lives

Helping Your Kid Survive and Thrive During Their College Years

B. Janet Hibbs, Ph.D., and Anthony Rostain, M.D.

From leading adolescent mental health experts, a guide for parents of every college-bound kid on what's normal mental health and behavior, what's not, and how to intervene before it's too late

All parenting is in preparation for letting go. However, the paradox of parenting is that the more we learn about adolescent development and risk, the more frightened we become for our children, and the more we want to stay involved in our children's lives. This becomes particularly necessary, and also particularly challenging, when a child goes off to college: mid- to late adolescence, the years just before and after students head off to college, coincides with the emergence of many mood disorders and other major mental health issues. Recognizing how critical this period is, parents want to hold on tight—just at the moment their teen's healthy development requires that they pull back.

That's why, when family psychologist Dr. B. Hibbs's own son came home from college mired in a dangerous depressive spiral, she turned to Dr. Anthony Rostain. A nationally recognized expert in child and adolescent psychiatry, he also has a secret superpower: he understands the arcane rules governing privacy and parental involvement in students' mental health care on college campuses, the same rules that sometimes hold parents back from getting good care for their kids. Now, these two doctors have combined their expertise in adolescent mental health, and assembled this field guide for every parent of a college or college-bound student who wants to know what's normal, what's not, and how to intervene before it's too late.

PRAISE

“Childhood is disappearing for young adults, with the pressure to perform, the seductions of social media and the fears of an uncertain future, as stress, anxiety and depression are reaching epidemic proportions. I can think of no better guide than *The Stressed Years of Their Lives* for overwhelmed parents and stressed-out kids for navigating these turbulent times. This is required reading for the college set.” —Brigid Schulte, author of the *New York Times* bestselling *Overwhelmed* and Pulitzer Prize winning journalist

ANTHONY ROSTAIN, M.D., M.A., is a nationally-recognized expert in child and adolescent psychiatry, and a professor of psychiatry and pediatrics at the Perelman School of Medicine, University of Pennsylvania, and at the Children's Hospital of Philadelphia (CHOP). **B. JANET HIBBS** M.F.T., Ph.D. has held faculty positions for more than 15 years in graduate programs for psychologists and marital and family therapists. Saving Meghan

D. J. Palmer

A riveting new thriller about a mother accused of deliberately making her daughter sick—a phenomenon known as Munchausen Syndrome by Proxy—and the secrets and lies that are revealed.

The Gerard family has lived a charmed life. Carl is a highly successful residential developer with millions in the bank who married his high school sweetheart, Becky, and they have a beautiful daughter, Meghan. But when Meghan is suddenly struck with a mysterious illness that starts out as chronic headaches and joint pain but progresses rapidly to affect her cognitive ability, the family begins to fracture as they search desperately for a diagnosis and a cure for Meghan's suffering.

Dr. Zachary Fisher, a pediatrician and the foremost expert on a rare mitochondrial disease, might just be the answer to their prayers. After the death of his own son, Dr. Fisher dedicated his life to finding a way to cure the disease with a passion that borders on obsession, and he is convinced that Meghan is suffering from the same illness. However, family secrets and clashing medical opinions begin to raise questions about the puzzling nature of Meghan's illness. As the Gerards grow more and more suspicious of each other and their medical team, they must also race against the clock to decide whether to give Meghan a dangerous test that could prove once and for all what — or who — is responsible for her condition.

The Mother-in-Law

Sally Hepworth

A twisty, compelling novel about one woman's complicated relationship with her mother-in-law that ends in murder...

From the moment Lucy met her husband's mother, Diana, she was kept at arm's length. Diana was exquisitely polite, and properly friendly, but Lucy knew that she was not what Diana envisioned. But who could fault Diana? She was a pillar of the community, an advocate for social justice who helped female refugees assimilate to their new country. Diana was happily married to Tom, and lived in wedded bliss for decades. Lucy wanted so much to please her new mother-in-law.

That was five years ago.

Now, Diana has been found dead, a suicide note near her body. Diana claims that she no longer wanted to live because of a battle with cancer.

But the autopsy finds no cancer.

The autopsy does find traces of poison and suffocation.

Who could possibly want Diana dead?

Why was her will changed at the eleventh hour to disinherit both of her adult children and their spouses?

With Lucy's secrets getting deeper and her relationship with her mother-in-law growing more complex as the pages turn, this new novel from Sally Hepworth is sure to add to her growing legion of fans.

Ten Years a Nomad

A Traveler's Journey Home

Matthew Kepnes

Part travel memoir and part philosophical look at why we travel, filled with stories of Matt Kepnes' adventures abroad, an exploration of wanderlust and what it truly means to be a nomad.

Ten Years a Nomad is Matt Kepnes' poignant exploration of wanderlust and what it truly means to be a nomad. Part travel memoir and part philosophical look at why we travel, it is filled with aspirational stories of Kepnes' many adventures.

New York Times bestselling author of *How to Travel the World on \$50 a Day*, Kepnes knows what it feels like to get the travel bug. Wanderlust is a powerful thing. After quitting his 9-5 job more than ten years ago, he realized that living life meant more for him than simply meeting traditional milestones like buying a car, paying a mortgage, and moving up the career ladder. With almost nothing tangible to show for it after traveling over 500,000 miles and staying in 1,000 different hostels in 90 different countries, Matt has compiled his favorite stories and experiences in this travel manifesto to show a different side of life. Filled with the color and perspective that only hindsight and self-reflection can offer, these stories get to the real questions at the heart of wanderlust. *Ten Years a Nomad* is for travel junkies, the travel-curious, and anyone interested in what you can learn about the world when you don't have a cable bill for a decade.

When They Come for You

How Police and Government Are Trampling Our Liberties—and How to Take Them Back

David Kirby

A revealing book about how government, law enforcement, and bureaucratic interests are seizing our property, our children, our savings, and our fundamental American rights—and how to fight back.

Liberty and justice for all is the bedrock of American democracy, but has America betrayed our founders' vision for the nation? In *When They Come For You*, *New York Times* bestselling author David Kirby exposes federal, state, and local violations of basic constitutional rights that should trouble every American, whether liberal, conservative, or libertarian. Free speech, privacy, protection from unreasonable search and seizure, due process, and equal protection under the law are rights that belong to every American citizen, but are being shredded at an alarming rate all across the country.

Police and prosecutorial misconduct, overzealous bureaucrats with virtually unchecked power, unwarranted searches, SWAT-style raids on the homes of innocent Americans, crackdowns on a free press and the right to protest, removing children from their parents without cause, "debtors prisons," restricting freedom of health choice, seizing private assets for government profit, and much more demonstrate how deeply our rights and our national values are eroding. *When They Come For You* uses true stories of everyday citizens to reveal how our federal, state, and municipal governments, police, lawmakers, judges, revenue agents, unelected power brokers, and even government social workers are eviscerating our most fundamental liberties. And, it shows how people are fighting back—and winning.

PRAISE

Praise for *Death at SeaWorld*:

"Brilliantly and intensively researched and conveyed with clarity and thoughtfulness." —*San Francisco Book Review*

"A chilling depiction... Kirby lays out a compelling scientific argument." —*New Scientist*

DAVID KIRBY is the author of several nonfiction books including *Evidence of Harm*, a *New York Times* bestseller, winner of the 2005 Investigative Reporters and Editors award for best book, and a finalist for the New York Public Library Helen Bernstein Award for Excellence in Journalism, as well as *Animal Factory* and *Death at SeaWorld*. He lives in New York City.

The League of Wives

The Untold Story of the Women Who Took on the U.S. Government to Bring Their Husbands Home

Heath Hardage Lee

***The League of Wives* follows the wives of four Vietnam POWs through their transformation from rule-bound wives to national lobbyists, international human rights figures, spies, & rescuers.**

On February 12, 1973, one hundred and fifteen men who, just six years earlier, had been high flying Navy and Air Force pilots, shuffled, limped, or were carried off a huge government C-141 military transport plane at Clark Air Base in the Philippines. These soldiers had endured years of brutal torture, kept shackled in solitary confinement, starving in rat-infested, mosquito-laden prisons, the worst of which was The Hanoi Hilton.

Months later, the first Vietnam POWs to return home would learn that their rescuers were their wives, a group of women that included Jane Denton, Sybil Stockdale, Andrea Rander, Phyllis Galanti, and Helene Knapp. These women, who formed The National League, would never have called themselves “feminists,” but they had become the POWs most fervent advocates, going to extraordinary lengths to facilitate their husbands’ freedom by relentlessly lobbying government leaders, conducting a savvy media campaign, arranging covert meetings with antiwar activists, learning encryption so that they could smuggle information out of Vietnam, and, most astonishingly, engaging in direct negotiations with the North Vietnamese for their husbands’ release.

In a page-turning work of narrative non-fiction similar to *Hidden Figures*, Heath Hardage Lee tells the story of these remarkable women for the first time in *The League of Wives*, a book certain to be on everyone’s must-read list.

PRaise

“Can there be any major Civil War story that we haven’t heard? The answer is, yes! Here comes Heath Lee with the fascinating—and surprising—life of Varina Anne ‘Winie’ Davis. . . . Clear, strong writing brings the history, mores, and manners of the day brilliantly to life.”—Lee Smith, author of *Guests on Earth* and *Fair and Tender Ladies on Winnie Davis*

**“Heath Lee has written a beautiful and thoughtful biography of Winnie Davis.”
—Carol Berkin, author of *Civil War Wives* and *Wondrous Beauty on Winnie Davis***

HEATH HARDAGE LEE holds a B.A. in History with Honors from Davidson College, and an M.A. in French Language and Literature from the University of Virginia. Heath created an exhibition, *The League of Wives: Vietnam POW MIA Advocates & Allies* for the Dole Institute of Politics that will travel to museums all over the U.S. Her first book, *Winnie Davis: Daughter of the Lost Cause* won the 2015 Colonial Dames of America Book Award and a Gold Medal from the Independent Publisher 2015 Book Awards.

Wayfinding

The Science and Mystery of How Humans Navigate the World

M. R. O'Connor

Both sweeping and intimate, a fascinating look at how finding our way make us human.

In this compelling narrative, journalist M.R. O'Connor travels to the Arctic, Australia and South Pacific to talk to master navigators who find their way using environmental cues, and learn how they are trying to preserve these unique practices in the age of GPS.

Along the way O'Connor talks to scientists and scholars about the fascinating evolution of our species' navigation faculties, exploring questions like: Why are we different from birds or whales that have the ability to migrate so far and orient with astonishing precision? How did our ancient ancestors navigate? What can artificial intelligence tell us about the roots of human intelligence and its connection to wayfinding?

What emerges is a revelatory account of the neurological basis of spatial orientation within the brain's hippocampus. Without it, people inhabit a dream state without memories of the past or ability to imagine a future. Studies reveal that the more we exercise our cognitive mapping skills, the greater health of our hippocampus, whereas atrophy in this region is associated with afflictions such as Alzheimer's Disease, depression and PTSD.

A travel book for science geeks, *Wayfinding* is a captivating journey that charts how our profound capacities for exploration, memory, and storytelling results in powerful connections to the world around us.

PRAISE

"This revelatory book has the qualities of a grand adventure." —Nicholas Carr, author of *The Shallows* and *The Glass Cage*

"An insightful examination of the human mind and navigation. An engaging read from start to finish." —Mary A. van Balgooy, executive director, Society of Woman Geographers

"I thoroughly enjoyed this deep and absorbing investigation. Fascinating." —Tristan Gooley, author of *The Natural Navigator*

M.R. O'CONNOR's stories have appeared online in the *The New Yorker*, *Foreign Policy*, *Slate*, *The Atlantic*, and *Nautilus*. Her reporting has received support from the Pulitzer Center on Crisis Reporting, The Nation Institute's Investigative Fund, and the Alfred P. Sloan Foundation. In 2016 she was a Knight Science Journalism Fellow at MIT. A graduate of Columbia's Graduate School of Journalism, she lives in Flatbush, Brooklyn.

Ronan Frost

A new adventure book in the tradition of Matthew Reilly and James Rollins

Greg Rask, a dying tech billionaire, has invested millions chasing miracle cures. None of them are worth a damn, but he refuses to give up. Now, he's gathering a team willing to go to the ends of the earth chasing life.

Each of Rask's crew has beaten incredible odds to rise from the ashes of their old lives to where they are now. Together, their next task is to retrieve a painting that is believed to hide a map which, if genuine, marks it as a treasure of the Ahnenerbe, the occult wing of the SS, who had devoted dozens of expeditions in search of the three cintamani stones for their combined properties, and the lost city where they were rumored to lay hidden: Shambhala. But a mystical brotherhood sworn to protect the secrets of the ancients—the same secrets that allow its members to defy death—will stop at nothing to ensure that Rask's crew fail.

In an adrenalin-pumping quest through some of the most savage terrains known to man, the crew will be pushed to the limits of endurance and beyond.

RONAN FROST worked for the British Ministry of Defence where he was a liaison with intelligence operatives working behind the Iron Curtain during the last year of the Cold War. During the first Gulf War, he worked with the Royal Navy. And then, he developed a plan with economic experts for the rationalization and centralization of the British Royal Navy which was presented to the House of Commons. Now retired from that life, he lives in Europe with his wife and dog.

Wild at Heart

America's Turbulent Relationship with Nature, from Exploitation to Redemption

Alice Outwater

In the tradition of *The World Without Us*, a beautifully written and ultimately hopeful history of our relationship with the natural world

Nature on the brink? Maybe not. With so much bad news in the world, we forget how much environmental progress has been made. In a narrative that reaches from Native American tribal practices to public health and commercial hunting, *Wild at Heart* shows how western attitudes towards nature have changed dramatically in the last five hundred years.

The Chinook gave thanks for King Salmon's gifts. The Puritans saw Nature as a frightening wilderness, full of "uncooked meat." With the industrial revolution, nature was despoiled and simultaneously celebrated as a source of the sublime. With little forethought and great greed, Americans killed the last passenger pigeon, wiped out the old growth forests, and dumped so much oil in the rivers that they burst into flame. But in the span of a few decades, our relationship with nature has evolved to a more sophisticated sense of interdependence that brings us full circle. Across the US, people are taking individual action, planting native species and fighting for projects like dam removal and wolf restoration. Cities are embracing nature, too.

Humans can learn from the past, and our choices today will determine whether nature survives. Like the First Nations, all nations must come to deep agreement that nature needs protection. This compelling book reveals both how we got here and our own and nature's astonishing ability to mutually regenerate.

PRAISE

"*Wild at Heart* is a concise portrait of nothing less than America's relationship with nature. In twelve eloquent chapters Alice Outwater escorts us from the 18th century's tribes through colonialism and westward expansion, the debacles of our increasingly short-sighted industrialism, the conservation victories of the 1960's and '70s, and the tenuous balance achieved. A vital work by an exceptionally level-headed, Earth-aware writer." —David James Duncan, author of *The Brothers K* and *The River Why*

Alice Outwater grew up on Lake Champlain, Vermont, and studied engineering at the University of Vermont and at MIT. She is the author of *Water: A Natural History* and consults in water quality. She has lived on a farm since 1991 in Vermont, Hawaii and finally Colorado.

Doublespeak

Alisa Smith

The followup to the literate and action-packed historical thriller *Speakeasy*, *Doublespeak* finds plucky protagonist Lena on a journey back to her past.

Leutenant Lena Stillman has been left, nearly alone, on her code-breaking base in Alaska. WWII has been over for two months, but while she is under the thumb of the powerful Miss Maggie due to crimes committed a lifetime ago, her choices are limited.

Wracked with guilt over the disappearance of a friend she might have grown to love, Corporal Link Hughes, Lena is determined to find him when she decodes a Russian message containing his name and his potential location: Siam.

Her past seems desperate to catch up with her, and in Siam she finds none other than Bill Bagley—the man with whom she conducted a tempestuous love affair that led to delinquency and despair. Bill has escaped from prison to become a Siamese business man, now dealing in weapons and drugs. Disgusted with the changes she sees in him, Lena continues to search for Link, but can't help but feel that someone is dogging her footsteps...

Meanwhile, Bill's dark streak has only intensified after his time behind bars, and his newest plan involved not just robbing, but killing. German and Russian spies seem to be everyone, and Lena wonders if her time might be running out.

We Are Mayhem

A Black Star Renegades Novel

Michael Moreci

The second entry in the *Star Wars*-inspired series that *Nerdist* calls "the next big thing."

Though the ragtag group of misfits known as the Black Star Renegades won a decisive battle by destroying Ga Halle's *War Hammer*, the war is far from over. In response to losing the crown jewel of its fleet, the evil Praxis empire has vengefully reinforced its tyranny across the galaxy--but its rule won't be had so easily. Led by hotshot pilot Kira Sen, a growing rebel force stands in the way of Praxis's might. Not only do they possess the will to fight for galactic freedom, they also possess the ultimate ace in the hole: The mythical Rokura, the most powerful weapon ever known.

Too bad Cade Sura hasn't figured out to use it.

As Kira wages an increasingly bloody war against Praxis, Cade is left with only once choice: With Ga Halle scouring every star system for the coveted weapon, Cade embarks on a dangerous mission into uncharted space to discover the Rokura's origins. Only then can he learn how it can be wielded. Because if he doesn't, all hope for the galaxy might be lost.

The Bloated Belly Whisperer

See Results Within a Week, and Tame Digestive Distress Once and for All

Tamara Duker Freuman, MS, RD, CDN

America's top digestive dietician shares her program to vanquish bloating in a groundbreaking book that will help readers see results in a week or less!

With 50 recipes from former Bon Appétit editor and cookbook author Kristine Kidd

Bloating: ugh. About the most common complaint they get from patients, according to gastroenterologists. But Tamara Duker Freuman, a highly trained and sought-after nutritionist, knows something many doctors don't: *every unhappy belly is unhappy in its own way*. That's why Tamara's clients call her "The Bloated Belly Whisperer," and for good reason—for many years she's successfully helped her clients accurately describe their symptoms, and find a course of treatment that delivers rapid and lasting relief.

In this book, Tamara guides readers through the same steps she would use in a consultation, first with a quiz to help them hone in on their specific symptoms, and then by discussing the latest research and patient stories to offer dozens of solutions that will reduce abdominal bloating in *a week or less* by:

- Helping identify the specific cause of bloating
- Equipping readers with the right terminology and questions to take to their next doctor's visit
- Teaching the most effective dietary remedies for each particular brand of bloating
- Laying out the tools and healthy practices to end abdominal distress and bloating once and for all
