The City in the Middle of the Night

Charlie Jane Anders

From bestselling author Charlie Jane Anders (*All the Birds in the Sky*) comes a haunting, futuristic tale of a young girl who just might save humanity--if she can stay alive.

January is a dying planet, where the tidal-locked sun never sets, incurring a frigid darkness anywhere the burning light fails to touch. The human race clings to life in two great cities in the dim space between extremes--but the cities themselves have begun to crumble, and society is becoming as unforgiving and hostile as the environment around them.

Sophie, a student and reluctant revolutionary, becomes suddenly a pariah, sacrificed to the night, saved only by forming an unusual bond with the enigmatic beasts who roam the ice. But her fate is not yet written, and Sophie's ensuing journey will not only lead her to her true purpose, but change the entire world.

CHARLIE JANE ANDERS is the former editor-in-chief of io9.com, the popular Gawker Media site devoted to science fiction and fantasy. Her debut novel, *All the Birds in the Sky*, won the Nebula Award for Best Novel and was a Hugo Award finalist. Her story, "Six Months, Three Days" won a Hugo Award. Their affair is cut too short, however, when she is murdered. The suspects behind her death include the most powerful in the realm: a political rival, a jealous king, or, perhaps, the god of thunder who oversees them all.

Distraught, Leaper vows revenge, but his mission will lead him away from his forest home, across the vast floodplains, and to the edges of time and myth.

Variable Star

Robert A. Heinlein and Spider Robinson

For the first time in trade paperback, one of Robert A. Heinlein's final novels, completed by Hugo-winning author Spider Robinson

At his death in 1988, Robert A. Heinlein left behind a legacy of novels and short stories that almost single-handedly defined modern science fiction. But one of his masterpieces was never finished.

In 1955, he began work on *Variable Star*, a powerful and passionate tale of two young lovers driven apart by pride, power, and the vastness of interstellar time and space, only to set it aside to focus on other novels. The detailed outline and notes Heinlein created for the project lay forgotten for decades, only to be rediscovered almost a half a century later. The Heinlein Estate authorized Hugo and Nebula award-winning author Spider Robinson to expand the outline into a full-length novel. The result is vintage Heinlein, faithful in style and spirit to the Grand Master's original vision.

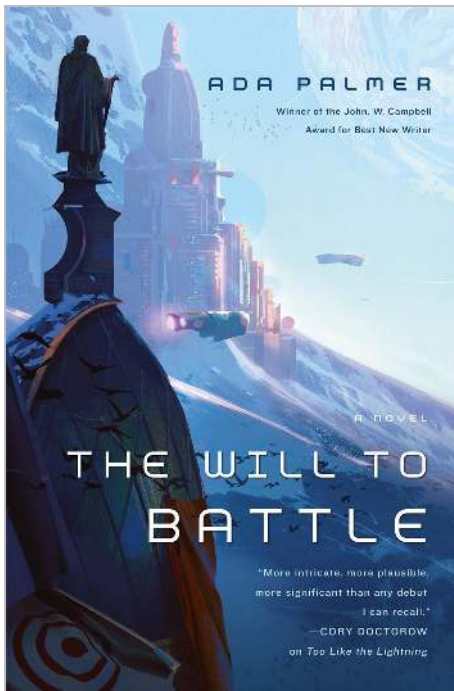

PRAISE

"Robert A. Heinlein apparently isn't really dead. He was obviously standing at the side of Spider Robinson as he wrote this book, guiding his hand. *Variable Star* will delight the fans of the greatest science fiction writer who ever lived." —John Varley, Hugo and Nebula Award-winning author of *The Persistence of Vision*

"This book is a delight and I love you for doing it. I love you even more for doing it so damned well. Thank you." —David Crosby, Grammy Award-winning singer/songwriter, member of The Byrds and Crosby, Stills, and Nash

ROBERT A. HEINLEIN was the dominant science fiction writer of the modern era, a writer whose influence on the field was immense. He won science fiction's Hugo Award for Best Novel four times.

Since he began writing professionally in 1972, SPIDER ROBINSON has won many major awards, including three Hugos, one Nebula, the John W. Campbell Award for Best New Writer, and the Robert A. Heinlein Award for Lifetime Achievement.

The Will to Battle

Book 3 of Terra Ignota

Ada Palmer

The Will to Battle's trade paperback edition—the third book of 2017 John W. Campbell Award winner Ada Palmer's Terra Ignota series—is a political SF epic of extraordinary audacity

The long years of near-utopia have come to an abrupt end.

Peace and order are figments of the past. Corruption, deception, and insurgency hum within the once steadfast leadership of the Hives, nations without fixed location.

The heartbreaking truth is that for decades, even centuries, the leaders of the great Hives bought the world's stability with a trickle of secret murders, mathematically planned. So that no faction could ever dominate. So that the balance held.

The Hives' façade of solidity is the only hope they have for maintaining a semblance of order, for preventing the public from succumbing to the savagery and bloodlust of wars past. But the illusion slips away as the great secret becomes more and more widely known.

Just days earlier, the world was a pinnacle of human civilization. Now everyone—Hives and hiveless, Utopians and sensayers, emperors and the downtrodden, warriors and saints—scrambles to prepare for the seemingly inevitable war.

PRAISE

"It is increasingly clear that we are in the hands of a new master of the genre....The Terra Ignota series...is like almost nothing else being written today."
—*RT Book Reviews*, 5 stars, on *The Will to Battle*

"The eloquence of Palmer's reflections on social issues cannot be denied."
—*Library Journal* (starred review) on *Seven Surrenders*

"Provocative, erudite, inventive, resplendent." —Ken Liu, on *Seven Surrenders*

"More intricate, more plausible, more significant than any debut I can recall."
—Cory Doctorow on *Too Light the Lightning*

ADA PALMER is the author of the Terra Ignota political SF series and a professor in the history department of the University of Chicago. She won the John W. Campbell award for Best New Writer in 2017. She is also a composer of folk and Renaissance-tinged a cappella music for the group Sassafrass. Her personal site is at adapalmer.com. The Ruin of Kings

Jenn Lyons

***The Ruin of Kings* unites the worldbuilding of a Brandon Sanderson with the storytelling verve of a Patrick Rothfuss. Prepare to meet the genre's next star.**

There are the old stories. And then there's what actually happens.

Kihrin is a bastard orphan who grew upon storybook tales of long-lost princes and grand quests. When he is claimed against his will as the long-lost son of a treasonous prince, Kihrin finds that being a long-lost prince isn't what the storybooks promised.

Far from living the dream, Kihrin finds himself practically a prisoner, at the mercy of his new family's power plays and ambitions. He also discovers that the storybooks have lied about a lot of other things, too: dragons, demons, gods, prophecies, true love, and how the hero always wins.

Then again, maybe he's not the hero, for Kihrin isn't destined to save the empire.

He's destined to destroy it . . .

Jenn Lyons is the director of an indie game company, Pixel Constructor, based out of Atlanta. She previously worked on *The Saboteur* and *Lord of the Rings: Conquest* at EA Games. This is her first novel.

Three Eves

Sylvia Day

A steamy urban fantasy series by *New York Times* and *USA Today* bestselling author Sylvia Day is now available in an omnibus containing *Eve of Darkness*, *Eve of Destruction*, and *Eve of Chaos*

From #1 *New York Times* bestselling author Sylvia Day (writing as S.J. Day) comes the Marked trilogy, starting with *Eve of Darkness*. This steamy urban fantasy series tells the story of Evangeline Hollis, a heavenly bounty hunter, who's cursed by God, hunted by demons, and desired by none other than Cain and Abel. Uncontrollable bloodlust, dark and sexy desires, disasters of biblical proportions... S.J. Day's epic series has it all and is not to be missed.

Eve of Darkness — Years ago, Evangeline Hollis spent a blistering night with a darkly seductive man she can't forget. Now Eve is thrust into a world where sinners are marked and drafted to kill demons. Her former one-night stand, Cain, is now her mentor—and his equally sexy brother, Abel is her new boss.

Eve of Destruction — When Eve's training class takes a field trip to an abandoned military base, things take a dark turn. Meanwhile, her body is still adapting to her new abilities and the challenges that came with them—such as uncontrollable bloodlust...which seems to be inciting another kind of lust altogether.

Eve of Chaos — Eve runs over Satan's hellhound during training, so he puts a bounty on her head, and every demon in the country wants to deliver. Meanwhile, as Cain's role in Eve's life becomes more and more uncertain, Abel doesn't hesitate to step in.

PRAISE

"Great characters and terrific storytelling in a hot-blooded adrenaline ride. A keep-you-up-all-night read."—Patricia Briggs, *New York Times* bestselling author

"When we last saw new 'Mark' Eve Hollis she was on the precipice of life and death, so thankfully Day wastes no time jumping back into the fray. This trilogy has a complex mythos that continues to place legendary siblings Cain and Abel at odds. Plenty of action keeps the middle book racing along. Day has a genuine flair for urban fantasy!" —*RT Book Reviews*

SYLVIA DAY is the #1 *New York Times*, #1 *USA Today*, and #1 international bestselling author of over twenty award-winning novels sold in more than forty countries. She is a #1 bestselling author in twenty-eight countries, with tens of millions of copies of her books in print.

The Shattered Kingdoms, Book Three

Evie Manieri

The dramatic conclusion of Evie Manieri's epic fantasy Shattered Kingdoms series boasting beloved characters, a fully realized world, and one final grand adventure

She was tainted. Once known as the Mongrel, Lahlil had only one purpose: to reap blood and carnage for those who paid the right price. And though the ravages of past wars haunted her every waking moment, when the Shadari called upon Lahlil to lead the rebellion against Norlanders—telepathic and bloodthirsty invaders who conquered their lands and enslaved their people to the mines—she delivered.

Then she ran.

Now, Lahlil must return to Shadar to save the person she loves the most and rebuild. What she finds first is a kingdom that has devolved to political discord, with an old enemy's ships sailing just beyond the horizon.

A Memory Called Empire

Arkady Martine

Like Ann Leckie's *Ancillary Justice* and Iain M. Banks' *Culture*, *A Memory Called Empire* is a space opera debut that will reinvent the genre.

Ambassador Mahit Dzmare arrives in the center of the multi-system Teixcalaanli Empire only to discover that her predecessor, the previous ambassador from their small but fiercely independent mining Station, has died. But no one will admit that his death wasn't an accident—or that Mahit might be next to die, during a time of political instability in the highest echelons of the imperial court.

Now, Mahit must discover who is behind the murder, rescue herself, and save her Station from Teixcalaan's unceasing expansion—all while navigating an alien culture that is all too seductive, engaging in intrigues of her own, and hiding a deadly technological secret—one that might spell the end of her Station and her way of life—or rescue it from annihilation.

Arkady Martine is a speculative fiction writer and, as Dr. AnnaLinden Weller, a historian of the Byzantine Empire. Under both names, she writes about border politics, rhetoric, propaganda, and the edges of the world. Arkady grew up in New York City and, after some time in Turkey, Canada, and Sweden, lives in Baltimore with her wife, the author Vivian Shaw.

A story of deposed kings, betrayed queens, and bloody dynastic battles in the trade paperback edition of Tessa Gratton's debut adult fantasy

Tessa Gratton's acclaimed epic fantasy, inspired by *King Lear*, brings to life a world that hums with ancient magic, and characters as ruthless as the tides.

Three daughters. One crown. All-out war.

Gaela. Ruthless commander.

I am the rightful heir of Innis Lear. The King's hold on the crown must end—willingly or at the edge of my sword.

Regan. Master manipulator.

To secure our place on the throne, I must produce an heir. Countless times I have fed the island's forests my blood. No matter what or whom I must destroy, I *will* wield the magic of Innis Lear.

Elia. Star-blessed princess.

My sisters lurk in the shadows like serpents, waiting to strike. I must protect my father and my homeland, even if it means I will be banished. We all have to make sacrifices, and my freedom must be mine.

Waste Tide

Chen Qiufan

For fans of Cixin Liu and Paolo Bacigalupi, a thought-provoking and timely vision of the future from a rising star of Chinese science fiction.

Mimi is a 'waste girl', a member of the lowest caste on Silicon Isle.

Located off China's southeastern coast, Silicon Isle is the global capital for electronic waste recycling, where thousands like Mimi toil day and night, hoping one day they too will enjoy the wealth they've created for their employers, the three clans who have ruled the isle for generations.

Luo Jincheng is the head of one of these clans, a role passed down from his father and grandfather before him. As the government enforces tighter restrictions, Luo in turn tightens the reins on the waste workers in his employ. Ruthlessness is his means of survival.

Scott Brandle has come to Silicon Isle representing TerraGreen Recycling, an American corporation that stands to earn ungodly sums if they can reach a deal to modernize the island's recycling process.

Chen Kaizong, a Chinese American, travels to Silicon Isle as Scott's interpreter. There, Kaizong is hoping to find his heritage, but finds more questions instead. The home he longs for may not exist.

As these forces collide, a dark futuristic virus is unleashed on the island, and war erupts between the rich and the poor; between Chinese tradition and American ambition; between humanity's past and its future.

PRAISE

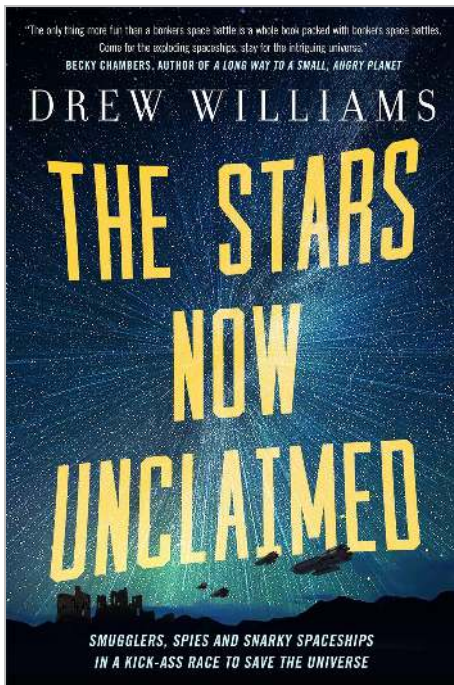

"The pinnacle of near-future SF writing." —Cixin Liu, Hugo Award-winning author of *The Three Body Problem*

Chen Qiufan is an award-winning science fiction writer. He grew up near Guiyu, China, home to the world's largest e-waste recycling center, an area the UN called an "environmental calamity." The Stars Now Unclaimed

Drew Williams

Perfect for fans of *Firefly* and James S. A. Corey's *Expanse* series, *The Stars Now Unclaimed* is a fun, adventure-filled ride around a far-future galaxy from Southern bookseller Drew Williams.

"The only thing more fun than a bonkers space battle is a whole book packed with bonkers space battles. Come for the exploding spaceships, stay for the intriguing universe."—Becky Chambers, author of *A Long Way to a Small, Angry Planet*

Jane Kamali is an agent for the Justified. Her mission: to recruit children with miraculous gifts in the hope that they might prevent the Pulse from once again sending countless worlds back to the dark ages.

Hot on her trail is the Pax—a collection of fascist zealots who believe they are the rightful rulers of the galaxy and who remain untouched by the Pulse.

Now Jane, a handful of comrades from her past, and a telekinetic girl called Esa must fight their way through a galaxy full of dangerous conflicts, remnants of ancient technology, and other hidden dangers.

Think big guns, smugglers, and epic space battles.

And that's just the beginning . . .

Drew Williams has been a bookseller in Birmingham, Alabama since he was sixteen years old, when he got the job because he came in looking for work on a day when someone else had just quit. Outside of arguing with his coworkers about whether *Moby Dick* is brilliant (nope) or terrible (that one), his favorite part of the job is discovering new authors and sharing them with his customers.

Lady Hotspur

Tessa Gratton

Sweeping, heart-stopping novel of betrayal and battlefields in a gender-swapped fantasy homage to Shakespeare's *Henry IV*

Aremoria has too long existed without magic. Ancient curses have found their voices again in hauntings and mysterious murders, nameless wizards are returning home, and the stars have only a single prophecy to give: *The dragon, the lion, the wolf together will make Aremoria whole, or sunder it forever.*

Hal was once a knight sworn to protect her future queen Banna. Yet, after a rebellion led by her own mother, she now holds the position as queen of Aremoria. Guilt and bloody memories plague her.

Isarna, known as Lady Hotspur for her temper and warcraft, has never been more lost. Unlike her former lover Hal, Hotspur never expected their love to have a happy ending as female heirs to powerful families. But she was blindsided by Hal's betrayal.

Banna has fled to Innis Lear to lick her wounds, heal her heart, and plot revenge against those who would usurp her crown.

Three have the power to bring the once-beautiful Aremoria back to life—or destroy it.

Before she can rescue her town, however, Josette must maneuver her way through the nest of overstuffed vipers that make up the nation's military and royal leaders in order to drum up support. The foppish and mostly tolerated crew member Lord Bernat steps in to advise her, along with his very attractive older brother.
