Celebrating **FIVE** Years of Turning Heads, Shaping Minds

We are FIVE!

Turning five is a milestone in a child's life, and we are proud to celebrate this same milestone in publishing years. Born in April 2014 with a small list of just five titles, Twirl has continued to grow, with the help of our enthusiastic friends and partners at Chronicle Books. We have been excited to share fresh and innovative formats and series each season, and it has been encouraging to see our books garner praise and positive recognition from booksellers, educators, parents, and children.

Now with more than 100 titles in the Twirl catalog, we are pleased that series such as The Ultimate Books™, Touch and Explore™, and Magnetology™ have become bestsellers. We are honored that in 2018 *Mr. Bear's Colors* was recognized as one of *Parents* magazine's Best Books of the Year, *Zoe and Zack™ Opposites* was also one of *Kirkus Reviews's* Best Books of the Year, and many other titles earned starred reviews.

We are growing up, and continue to be committed to our goal of publishing books with innovative formats and developmentally sound content, books

that inspire, challenge, and support the ever-curious minds of young children.

We are excited to present our Fall 2019 list, which includes:

- The long-awaited next title in The Ultimate Book series, *The Ultimate Book of Planet Earth*
- Twirl's first press-and-play sound book, *My Big Book of Sounds*, which features a 20-button sound panel and 100 sounds and phrases
- More adorable retro-chic illustrations from Virginie Aracil in *Mr. Bear's Colors*, the follow-up title to the very popular *Mr. Bear's ABC*
- *Badaboom Badabump!*, a play set with a storybook and eight sturdy animal-shaped characters
- Two new Ultimate Spotlight titles, focusing on *Astronauts* and *Savanna Animals*

So let's continue our journey together. We look forward to turning heads and shaping minds for many more years!

Backyard Animals

Baby Basics™

By Xavier Deneux

Baby Basics™ books encourage tactile exploration, support hand-eye coordination, and help develop strong cognitive skills. That mission builds on the findings of experts that interactive books featuring high-contrast visuals stimulate babies' brain development, as well as keep them engaged and entertained. Xavier Deneux's graphic eye-catching illustrations of familiar backyard animals and the embossed images invite the youngest readers to explore through seeing and touching, while developing their language skills. What a wonderful gift for baby! 🐾

Boo! Scared You!

By Stéphanie Babin ·
Illustrated by Vincent Mathy

Get ready to be scared! Stick your tongue out at the dragon. Oh no, what will happen? Open the big flap . . . waah! The dragon is breathing fire! Tickle the mean looking ogre. Uh oh, will he get mad? Open the big flap . . . the ogre is laughing! In this frighteningly funny book, kids are encouraged to be as brave as they can be to tickle, howl, or shout at fearful creatures—a different action on each spread—then lift the big flaps to reveal the unexpected results! A joke book for very young children focusing on physical humor, it is sure to make them roll with laughter. 😊

Kisses!

By Virginie Aracil

A loving celebration of the endearing bond between parent and child, Virginie Aracil's tender offering will become a bedtime favorite for young children. Each spread features a parent with their child, sharing different kinds of kisses: from a sweet little peck for a baby mouse to a ticklish nuzzle for a baby giraffe and a warm snuggly smooch for a polar bear cub. But nestled next to his mother, one little baby will get the biggest, most special kiss of all. The die-cut pages are graduated—giving children a “What’s next” sense of discovery (“Whose ears are peeking out?”)—and sturdy, not only making this satisfying for little hands to hold, but ensuring that it will sustain the multiple readings this book is sure to demand. Kiss, kiss! @

Mr. Bear's Colors

By Virginie Aracil

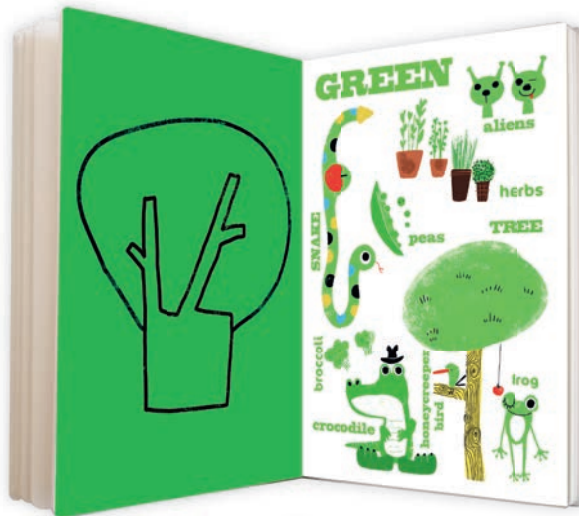

Virginie Aracil's charming Mr. Bear is back—this time to lead toddlers on an extraordinary adventure through the world of colors. Just as *Mr. Bear's ABC* pushed the boundaries of what an ABC book can be, this oversized volume features an equally eclectic collection of appealing retro-chic images, introducing the youngest readers to an orange fox bearing orange carrots, a green snake with an apple in its belly, a rainbow-colored doughnut, and even purple rain! The vibrant assortment encourages curiosity, helps build vocabulary, and is sure to make learning about colors a lot more fun. What a great addition to nursery bookshelves! @

My Big Book of Sounds

By Kiko

Ding dong! Flush! Moo! Roar! What's that sound? Press the buttons to find out! Listening is an important part of language development, and Twirl's first sound book will engage very young children as they explore sounds and words found in familiar settings, and perhaps some not-so-familiar ones. The 20-button sound panel includes 100 sounds and words; each button accompanies a spread where the actions, objects, and animals are named, followed by the appropriate sounds. From sounds in the home and on the street to sounds in the jungle and even in the ocean, little ones will be able to quickly identify sounds and name the animals and objects that make them. Big sounds for little ears! 🎧

Badaboom Badabump!

By Bartélémi Baou •
Illustrated by Xavier Deneux

Inspiring imagination and encouraging hours of creative play, *Badaboom Badabump!* is an innovative play set that not only includes a storybook featuring the hilarious cumulative tale of Gorilla's journey to Zebra's house, but also eight wooden animal figures that are just right for little hands. When Gorilla decides to visit Zebra to play, all his friends want to come along, and soon there is a parade of animals off to see Zebra. But how will they get across the river to Zebra's house? In the end, a good idea becomes a crash-bang-slamming one! Young children can reenact the boisterous drama again and again, using the animal play pieces, or create new stories of their own. A delightful gift for toddlers!@

Bathtime

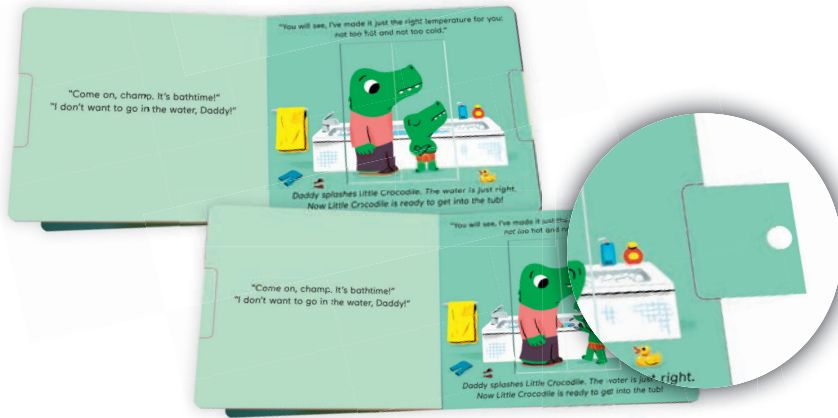

Pull and Play Books™

By Alice Le Hénand ·
Illustrated by Thierry Bedouet

For many young children (and sometimes their parents), bathtime is a chore. Kids can think of a million things they'd rather be doing than take a bath. The latest title in the Pull and Play Books™ series provides reassurance and support through gently humorous situations, showing children that bathtime is not only essential but oodles of fun! Children will identify with the feelings voiced by Little Crocodile and his friends—whether it's keeping their hair dry or not wanting to stop playing. Using pull tabs to control the changing pictures, young readers are empowered to apply their newly learned knowledge to their own experiences. Look, Mom and Dad, no more tears! 😊

Matching Game Book™

By Stéphanie Babin ·
Illustrated by Ben Newman

On a road trip or waiting at a restaurant? Not a problem for children when they have this latest title in the Matching Game Book™ series, which is great for fans of all things that go (and who isn't?) or who just love matching games. Children can slide the panels to find matching pairs, spot the vehicles in the big picture, identify vehicles, or even come up with games of their own. This sturdy oversized board book is the perfect take-along for busy hands and busy minds, while helping to build their vocabulary, cultivate their visual memory, and increase their attention to detail. It's totally fun! ☺

The Ultimate Book of Planet Earth

By Anne-Sophie Baumann ·
Illustrated by Didier Balicevic

The internationally successful Ultimate Book series expands its scope to embrace—very appropriately—the whole world! *The Ultimate Book of Planet Earth* offers lots of opportunity for hands-on interaction using flaps, pop-ups, and more! Pull a tab to see how magma erupts from a volcano, turn a page for a pop-up of a mountain range, or rotate a wheel to move the blades of a wind turbine! *Planet Earth* explores not only the geology of the Earth—oceans, continents, and the formation of mountains and volcanoes—but also its geography, atmosphere, and weather. A valuable reference book for any child! ☺
