Starting Out

Celebrating the life, growth, and development of adorable baby animals, *Starting Out* employs a unique first-person perspective to introduce foundational biological concepts as it narrates the tale of growing up in the wild. The straightforward text and large photos of the animal in its natural environment will both entertain and enlighten as readers learn how the young animal’s physical features, diet, habitat, and familial relationships play a role in its growth and development.

New Titles: AMAZING RESCUE VEHICLES

Amazing Rescue Vehicles

From the vanlike appearance of ambulances to the spinning rotor blades of helicopters, vehicles of all forms have long been used in emergency situations. Appealing to future paramedics, pilots, captains, drivers, and crews, this new series explores the continued use of four *Amazing Rescue Vehicles*. Detailed photos and STEM-appropriate text examine the featured vehicle's parts, functions, variations, and worksites. Each book also includes a labeled pictorial diagram.

“... a visually arresting package featuring animals in all their fierce, beautiful, and awe-inspiring glory.” – *Booklist*

I'm the Biggest!

From shortest to longest, deepest to tallest, and smallest to biggest, this new series uses varying degrees of comparison to take a closer look at the relationships of the flora, fauna, and landforms of six different biomes. *I'm the Biggest!* places each ecosystem under investigation as it studies how the region's features affect its inhabitants, as well as how the inhabitants flourish within the environment. Striking photos, graphics, and maps supply real-world examples of each ecosystem, encouraging curious young readers to further explore the topic at hand.

A Dog's Life

Providing an insightful and accessible look at several aspects of dog ownership, *A Dog's Life* highlights how to care for and understand our loyal four-legged companions. Each book offers a brief tutorial and works with the others to compile a comprehensive yet introductory guide to such issues as what motivates a dog, methods of proper handling and grooming, and how to interpret behaviors, facial expressions, and vocalizations. Vibrant, relatable photos feature an array of dogs and are sure to entice humans and canines alike!

National Park Explorers

As summer vacation draws near, children (and adults) start dreaming of the next great adventure. Why not become *National Park Explorers* and discover the wonders contained in some of America's most popular national parks? Each book highlights key landscape features, wildlife, and activities unique to the park, noting when is a particularly good time of year to visit. Abundant photographs captivate the eye, enticing armchair adventurers to hop in the car or catch a plane to experience the park in all its scenic glory.

Dinosaur Days

Journeying back through time, *Dinosaur Days* acquaints readers with eight creatures of the Mesozoic era. Using age-appropriate language, this new series will whet young paleontologists' appetites as it uncovers when and where important fossils have been found as well as what these fossilized remains have revealed about the dinosaur's lifestyle, including how its physical features aided survival in its prehistoric habitat and theories about its extinction. A timeline and comparative graphic provide additional context.

X-Books

X-Books are for kids who love facts—especially in bite-sized portions and about fascinating true subjects. Plentiful images and graphical representations stimulate visual perception, drawing readers into the informational texts. Each title is framed by a signature Top 5 countdown feature that serves as an example of sequential order: in *X-Books: Reptiles*, these sidebars summarize the extraordinary abilities and features of some of the most intriguing reptiles in the animal kingdom. Count down the world's most extreme reptiles, and launch a lifetime of reading without limits!

“Assisted by terrific photos, these books do an excellent job describing the interrelatedness of the inhabitants of mountain, Arctic, and marine ecosystems.” – *The Horn Book Guide*

Living Wild

The fused jaws of anteaters, the permeable skin of salamanders, and the defining characteristics of many other fascinating animals are explored in the *Living Wild* series. Vivid photographs help take readers on a virtual field study to observe the life cycle and behaviors of each featured creature. Each book also looks at past and present scientific research and includes an animal tale drawn from mythology or folklore. Progressively complex text draws readers into this interdisciplinary life science series.

Write Me a Poem

Geared toward the early-elementary learner who may be encountering literary forms and terms for the first time, *Write Me a Poem* teaches by example, showing how poets use language in playful and effective ways to create meaning. The friendly illustrations add another layer of approachability, and each book invites participation in a related activity.
