Obedience is the foundation of any reliable, well-trained dog. Without obedience, working dogs are ineffective in operations and pet dogs can be annoying and possibly a danger to themselves or others. In *K9 Obedience Training*, veteran search and rescue (SAR) dog handler and trainer Susan Bulanda shares the secrets of building an effective obedience training program. SAR dogs need “thinking” obedience: they sometimes need to exercise intelligent disobedience in the field. You can use the same training program for any working or pet dog.

About the Author

Susan Bulanda is recognized worldwide as an expert in animal behavior and K9 search and rescue who has formed and run two K9 SAR units. She is a founding member of the National Search Dog Alliance and a former vice president and dog chairperson of the International Association of Animal Behavior Consultants.
